## 1. GENERAL INFORMATION

(Sub-fund of Goldman Sachs Paraplufonds 1 N.V.)

### Management Board

Goldman Sachs Asset Management B.V.  
Prinses Beatrixlaan 35  
2595 AK The Hague, The Netherlands  
Internet: <https://am.gs.com>

### Members of the Management Board of Goldman Sachs Asset Management B.V.

P. den Besten  
M.C.M. Canisius  
G.E.M. Cartigny  
B.G.J. van Overbeek  
E.J. Siermann

### Depository

The Bank of New York Mellon SA/NV, Amsterdam branch  
Claude Debussylaan 7  
1082 MC Amsterdam  
The Netherlands

### Independent auditor

PricewaterhouseCoopers Accountants N.V.  
Thomas R. Malthusstraat 5  
1066 JR Amsterdam  
The Netherlands

### Fund Agent

ING Bank N.V.  
Bijlmerplein 888  
1102 MG Amsterdam  
The Netherlands

### Banker

The Bank of New York Mellon SA/NV  
Boulevard Anspachlaan 1  
1000 B-Brussels  
Belgium

### Transfer Agent

The Bank of New York Mellon NV/SA, Amsterdam branch  
Claude Debussylaan 7  
1082 MC Amsterdam  
The Netherlands

## 2. MANAGEMENT BOARD REPORT

### 2.1 Key figures Share Class P

		2024	2023	2022	2021	2020
Net asset value* (x 1,000)	€	206,292	201,997	168,735	229,321	137,879
Shares outstanding (number)		2,777,333	3,156,549	3,080,035	3,328,372	2,712,891

## **2.8 Notes to the key figures**

### **2.8.1 Reporting period**

The key figures relate to the positions at 31 December and the period from 1 January through 31 December, unless stated otherwise.

Share Class D of the Sub-fund started on 9 December 2021. The key figures 2021 for this Share Class relate to the positions at 31 December 2021 and the period from 9 December 2021 through 31 December 2021.

### **2.8.2 Net asset value per share**

The net asset value of each Share Class of the Sub-fund will be determined by the manager. The manager calculates the net asset value per Share Class each business day. The net asset value per share of each Share Class is determined by dividing the net asset value of a Share Class by the number of outstanding shares of that Share Class at the calculation date.

### **2.8.3 Transaction price**

The transaction price of each Share Class of the Sub-fund is determined by the manager on each business day and is based on the net asset value per share of each Share Class with an upcharge (subscription fee) or discount (redemption fee) to cover the costs of purchase and sale of 'physical' investments. The subscription and redemption fee is for the protection of existing shareholders of the Sub-fund and is beneficial to the Sub-fund. When no transaction has taken place on a business day, the transaction price is equal to the net asset value per share.

### **2.8.4 Net performance**

The net performance of each Share Class of the Sub-fund is based on the net asset value per share, taking into account any dividend distributions. The relative performance is the difference between the net performance of each Share Class of the Sub-fund and the performance of the index.

### **2.8.5 Index**

MSCI World (NR).

### **2.8.6 Average number of shares outstanding**

The average number of outstanding shares, used for the calculation of the investment result per share, is based on the weighted average of the outstanding shares on a daily basis. This is in line with the number of days that the calculation of the net asset value takes place during the reporting period.

### **2.8.7 Key figures per share**

Due to the timing and volume of subscriptions and redemptions in combination with the volatility of the results during the reporting period, the calculation of the key figures per share can provide a different outcome compared to the development of the net asset value per share during the reporting period.

## 2.9 General information

Goldman Sachs Duurzaam Aandelen Fonds (NL) ('the Sub-fund') is part of Goldman Sachs Paraplufonds 1 N.V. (refer to paragraph 2.14 Structure for more information). The annual report of Goldman Sachs Paraplufonds 1 N.V. (hereinafter referred to as the 'Fund') is available on the website of the manager.

The Sub-fund does not have any employees. Goldman Sachs Asset Management B.V. (hereafter: 'GSAM BV' or 'the manager'), located in The Hague, is the manager of the Sub-fund and is licensed by the Dutch Authority for the Financial Markets ('Stichting Autoriteit Financiële Markten', also referred to as 'AFM') under the Dutch Financial Supervision Act ('Wet op het financieel toezicht', also referred to as 'Wft'). The Management Board of the Fund is formed by GSAM BV. All shares in GSAM BV are held by Goldman Sachs Asset Management International Holdings B.V. Both entities are part of The Goldman Sachs Group, Inc. (hereinafter referred to as 'Goldman Sachs').

The AFM and the central bank of the Netherlands ('De Nederlandsche Bank N.V.', also referred to as 'DNB') act as supervisors. The AFM oversees conduct supervision under the Wft. Prudential supervision is performed by DNB.

## 2.10 Objective

By means of active management, the Sub-fund aims to achieve a better overall long-term return than the index.

## 2.11 Investment policy

The Sub-fund is actively managed and seeks to invest in shares and depositary receipts for shares (including claims, convertible bonds, profit and founders' shares or options, warrants to acquire or dispose of such securities and other similar securities) of companies worldwide pursuing sustainable business that meet relevant criteria set by the manager, whereby index divergence limits are applied. The composition of the investments of the Sub-fund may therefore vary materially from that of the index. The index is representative of the investment universe. The Sub-fund may invest in companies that are not part of the index. The Sub-fund strives for a lower carbon footprint than the index.

Sustainable companies operate in line with met social and environmental standards and practice good corporate governance. Sustainable companies combine their desire for good financial results with respect for social and societal principles (e.g. human rights, anti-discrimination, fighting child labour) and respect for the environment. In the share selection process, the fund uses fundamental and ESG analysis. Companies that are involved in controversial activities, such as weapons, tobacco and gambling, are excluded from the investment universe.

The Sub-fund promotes environmental and/or social characteristics, as described in Article 8 of Regulation (EU) 2019/2088 (on sustainability-related disclosures in the financial services sector, which regulation may be amended or supplemented from time to time).

The Sub-fund applies stewardship as well as an ESG integration approach and exclusion criteria in relation to various activities. Additional information can be found in the prospectus.

The Sub-fund considers the principal adverse impacts (PAIs) on sustainability factors mainly through stewardship. Information regarding the principal adverse impacts on sustainability factors can be found in the prospectus.

The Sub-fund can hold the investments both directly and indirectly – such as taking on exposure in the relevant financial instruments through derivatives or investments in other investment funds. The Sub-fund may make use of derivatives such as options, futures, warrants, swaps and forward currency transactions. They may be used for hedging purposes and for efficient portfolio management. These instruments may be leveraged, which will increase the Sub-fund's sensitivity to market fluctuations. When using derivatives, care will be taken to ensure that the portfolio as a whole remains within the investment restrictions. The risk profile associated with the type of investor that the Sub-fund focuses on does not change as a result of the use of these instruments.

In addition to the above, the following applies with respect to the investment policy of the Sub-fund:

- The assets may be invested in both euros and foreign currencies;
- If the manager considers such to be appropriate, risks, such as currency risks, for example, may be hedged against the index;
- In so far as the assets are not invested in the aforementioned financial instruments, the assets may be invested in certain money market instruments (such as certificates of deposit and commercial paper) or money market funds or held in the form of cash;
- Additional income may be generated by entering into “repurchase agreements” (‘repos’) and “lending transactions” (the lending of securities from the investment portfolio);
- The global exposure of this Sub-fund is determined in accordance with the commitment method;
- In derogation of what is stated in the prospectus, leveraged financing employed by this Sub-fund will not be accounted for in the annual report;
- The manager of Goldman Sachs Paraplufonds 1 N.V. is authorised to enter into short-term loans, as debtor, for the benefit of the Sub-fund;
- Transactions with affiliates will take place on the basis of conditions which are in line with generally accepted market practice;
- In line with the investment policy, the Sub-fund invests worldwide in financial instruments. The most important stock markets are located worldwide, with New York, London and Tokyo being possible examples;
- The Sub-fund will invest in total no more than ten percent of the managed assets in units in other collective investment schemes.

## 2.12 Dividend policy

The Sub-fund pursues an active dividend policy aimed at distributing the profit for each financial year no later than 8 months after the end of the financial year. Management may consider paying interim dividends or distributing more than the annual profit. The amount and frequency of distributions may vary from year to year and may be zero. Distributions may vary per Share Class as well as the payment method of the distribution.

## 2.13 Outsourcing

### Outsourcing of fund accounting

The manager of the Fund has outsourced the accounting function to The Bank of New York Mellon SA/NV. This outsourcing involves the calculation of the net asset value, maintaining accounting records and processing and executing payments. The manager remains ultimately responsible for the quality and continuity of these services.

### Outsourcing of financial reporting

The manager of the Fund, has outsourced the preparation of multiple financial reports, including the (semi-)annual reports of the Dutch GSAM BV funds, to DM Financial Netherlands B.V. The manager remains ultimately responsible for the quality and continuity of all financial reports.

## Outsourcing of management activities

The manager has outsourced all or part of its management activities to an affiliated external asset manager, Goldman Sachs Asset Management International (GSAMI), which is established in the United Kingdom.

The affiliated external asset manager is responsible for taking investment decisions within the framework of the investment policy as determined by the manager and as described in the prospectus of the Sub-fund, collecting and conducting research on the basis of which these decisions can be taken and giving instructions for the purchase and sale of financial instruments as well as the settlement of such transactions.

GSAMI is allowed to outsource the portfolio management for the Sub-fund to one or more group companies as a sub-delegated asset manager. GSAMI has entered into a sub-delegation agreement with Goldman Sachs Asset Management, L.P. Goldman Sachs Asset Management (Hong Kong) Ltd. and Goldman Sachs Asset Management (Singapore) Pte. Ltd.

## 2.14 Structure

The Fund is an open-end investment company with variable capital as described in Article 76a of Book 2 of the Dutch Civil Code. Except in special circumstances, the Fund may in principle issue or redeem shares on any business day.

The Fund is an undertaking for collective investment in transferable securities ('UCITS') within the meaning of the Dutch Financial Supervision Act ('Wet op het financieel toezicht', also referred to as 'Wft'). GSAM BV acts as manager of the Fund as defined in Section 1:1 of the Wft and in that capacity holds a license as defined in Section 2:69b(1), preamble and part (a) of the Wft from the AFM.

The Fund has an umbrella structure, which means that the ordinary shares are divided into various series of shares, with each series of shares corresponding to a separate Sub-fund. Goldman Sachs Paraplufonds 1 N.V. is the legal owner of the assets held by the individual Sub-funds.

A Sub-fund is a segregated part of the capital of the Fund for which a separate investment policy is pursued. The Wft states that all standards directed in whole or in part towards the Fund are also applicable to the Sub-funds. The part of the assets of the Sub-fund to be paid into, or allocated to, each Sub-fund is invested separately in accordance with a specific investment policy. Both gains and losses in the investment portfolio of a Sub-fund are credited or charged to the relevant Sub-fund.

The capital of a Sub-fund is segregated and subject to a statutory priority arrangement. Consequently, the assets of a Sub-fund may only be used to pay liabilities connected to the management and safe-keeping of the Sub-fund and the shares in that Sub-fund.

A Sub-fund is divided into one or more Share Classes. The Share Classes within the Sub-fund may differ in terms of cost and fee structure, the minimum amount of initial investment, demands on the quality of the investors, the currency in which the net asset value is expressed, etc.

### Summary of the main characteristics per Share Class at 31-12-2024

#### Share Class P

Investor type	This is a listed Share Class intended for private (non-professional) investors.	
Legal Name	Goldman Sachs Duurzaam Aandelen Fonds (NL) - P	
Commercial name	Goldman Sachs Duurzaam Aandelen Fonds (NL)	
Trading symbol	GSDZA	
ISIN code	NL0006311789	
Management fee	0.70%	
Fixed service fee	0.13%	

## Summary of the main characteristics per Share Class at 31-12-2024

**Share Class O**

Investor type	This is a Share Class intended for non-professional investors with an advice or asset management relationship with an eligible distributor that was approved in advance by the manager or UCITSs and/or collective investment schemes that invest for this specific target group.
Legal name	Goldman Sachs Duurzaam Aandelen Fonds (NL) - O
Commercial name	Goldman Sachs Duurzaam Aandelen Fonds (NL) - O
ISIN code	NL0012650378
Management fee	0.45%
Fixed service fee	0.13%

**Share Class I**

Investor type	This is a Share Class intended for professional investors.
Legal name	Goldman Sachs Duurzaam Aandelen Fonds (NL) - I
Commercial name	Goldman Sachs Duurzaam Aandelen Fonds (NL) - I
ISIN code	NL0010623039
Management fee	0.65%

**Share Class G**

Investor type	This is a Share Class intended for insurers approved by the manager for the purpose of capital accumulation in the context of unit-linked insurance.
Legal name	Goldman Sachs Duurzaam Aandelen Fonds (NL) - G
Commercial name	Duurzaam Wereldfonds
ISIN code	NL0010623047
Management fee	0.84%

**Share Class Z**

Investor type	This is a Share Class intended for other UCITSs and collective investment schemes managed by the manager or professional investors which pay a management fee to the manager itself or to a party affiliated with the manager.
Legal name	Goldman Sachs Duurzaam Aandelen Fonds (NL) - Z
Commercial name	Goldman Sachs Duurzaam Aandelen Fonds (NL) - Z
ISIN code	NL0010760013

**Share Class D**

Investor type	This is a Share Class intended for professional investors which, under an agreement with the manager, pay the management fee and other costs to the manager itself.
Legal name	Goldman Sachs Duurzaam Aandelen Fonds (NL) - D
Commercial name	Goldman Sachs Duurzaam Aandelen Fonds (NL) - D
ISIN code	NL0015000N41

**Share Class T**

Investor type	This is a Share Class intended for other UCITSs and collective investment schemes managed by the manager or parties approved by the manager.
Legal name	Goldman Sachs Duurzaam Aandelen Fonds (NL) - T
Commercial name	Goldman Sachs Duurzaam Aandelen Fonds (NL) - T
ISIN code	NL0012817084
Management fee	0.25%

## Summary of the main characteristics per Share Class at 31-12-2024

**Subscription and redemption fee**

Subscription fee	0.05%
Redemption fee	0.05%
Maximum subscription fee	0.40%
Maximum redemption fee	0.40%

**Fees****Management fee**

An annual management fee is charged to the Share Class, which is calculated pro-rata on a daily basis by using the total net asset value of the Share Class at the end of every day.

**Fixed service fee**

In addition to the management fee, an annual fixed service fee is charged to the Share Class, which is calculated pro-rata on a daily basis by using the total net asset value of the Share Class at the end of every day.

**Other costs**

Other costs may be charged to the Share Class. These costs, if applicable, are further explained in the notes to the respective Share Class as included in the financial statements.

**Subscription and redemption fee**

This concerns the fee charged to shareholders upon the purchase or sale of shares in the Sub-fund. The fee is calculated as a percentage markup or markdown on the net asset value per share, serves to protect the existing shareholders of the Sub-fund and is beneficial to the Sub-fund.

The actual percentage of the subscription and redemption fee can fluctuate and is published on the manager's website. This percentage may be changed without prior notice if the manager deems it necessary to protect the existing shareholders of the Sub-fund.

**Maximum subscription and redemption fee**

For transparency reasons, the manager has set a maximum percentage of the net asset value of the shares for the subscription and redemption fee. In exceptional market conditions, at the discretion of the manager, the manager may, in the interest of the existing investors of the Sub-fund, apply a higher percentage than the maximum percentage applicable to the Sub-fund at that time. In addition, the manager may, in the interest of the existing shareholders, apply a higher percentage than the maximum percentage applicable to the Sub-fund at that time in the event of exceptionally large orders to buy and sell shares in the Sub-fund, to compensate for the related additional transaction costs.

## 2.15 Fund Agent

The Fund has agreed with ING Bank N.V. that the latter company will act as Fund Agent. The Fund Agent is responsible for the evaluation and the acceptance of the buy and sell orders as entered in the exchange order book with regard to Share Class P of each Sub-fund, subject to the conditions as stated in the prospectus.

The Fund Agent will only accept orders which fulfil the following conditions:

- 1) Orders must be entered on the basis of a standard market settlement deadline.
- 2) Orders must be entered by another party affiliated with Euroclear Nederland.

Once the order book has been closed, the Fund Agent will transmit all buy and sell orders relating to Share Class P of each Sub-fund to the Fund via the Transfer Agent. The transaction price at which these buy and sell orders are executed on the following business day is supplied to Euronext Amsterdam by NYSE Euronext by the manager, via the Fund Agent.

## 2.16 Transfer Agent

Shares of Share Classes O, I, G, D, T and Z can be bought and sold through the mediation of The Bank of New York Mellon SA/NV in Brussels, Belgium. The costs associated with the safe-keeping of shares of investors by The Bank of New York Mellon SA/NV in Brussels, Belgium are charged by the manager to the relevant Share Classes. The Transfer Agent, i.e. The Bank of New York Mellon SA/NV, is responsible for the evaluation and the acceptance of the buy and sell orders concerning shares of the relevant Share Classes as entered in the order book, subject to the conditions stated in the prospectus.

The Transfer Agent will only accept orders which have been entered on the basis of a settlement deadline which is in line with generally accepted market practice. After closure of the order book, the Transfer Agent will forward the balance of all buy and sell orders to the Fund. The transaction price at which these buy and sell orders are executed on the following business day is to be published by the manager.

## 2.17 Depositary of Goldman Sachs Paraplufonds 1 N.V.

The assets of the Fund are in the safe-keeping of The Bank of New York Mellon SA/NV, Amsterdam branch, as the depositary of the Fund (the 'depositary').

The shareholders' equity of the depositary amounts to at least € 730,000.

The manager and depositary of the Fund have entered into a written agreement relating to management and depositary services. The main elements of this agreement are the following:

- The depositary ensures that the cash flows of the Fund are properly controlled and in particular that all payments by or on behalf of investors during the subscription for shares have been received and that all cash of the Fund has been recorded in cash accounts in the name of the Fund or in the name of the depositary acting on behalf of the Fund, opened with (in principle) an entity as described in Article 18(1)(a), (b) and (c) of European Directive 2006/73/EC (a credit institution or a bank authorised in a third country).
- The assets of the Fund consisting of financial instruments are entrusted to the depositary. The depositary holds in safe-keeping all financial instruments that can be registered on a financial instruments account in the books of the depositary, on separate accounts in the name of the Fund. In addition, the depositary holds in safe-keeping all financial instruments that can be physically delivered to the depositary.
- For the other assets of the Fund, the depositary determines whether the Fund is the owner of these assets based on information or documents provided by the manager or based on other external evidence. The depositary keeps a register for these other assets.
- The depositary ensures that the sale, issue, repurchase, redemption and cancellation of shares in the Fund take place in accordance with Dutch law, the Articles of Association of the Fund and the relevant procedures.
- The depositary ensures that the value of the shares in the Fund is calculated in accordance with Dutch law, the Articles of Association of the Fund and the relevant procedures.
- The depositary carries out the instructions of the manager, unless they conflict with Dutch law or the Articles of Association of the Fund.
- The depositary ensures that the equivalent value of the transactions involving the assets of the Fund is transferred to the Fund by the usual deadlines.
- The depositary ensures that the income of the Fund is allocated in accordance with Dutch law and the Articles of Association of the Fund.

In the context of depositary services, the depositary acts in the interests of the Fund as well as the investors in the Fund.

## 2.18 Audit committee

Investment institutions that are classified as public interest entities (PIEs) are generally required to establish an audit committee. However, GSAM BV is exempt from appointing an audit committee under Article 3 of the Decree on the Establishment of an Audit Committee. This means that the funds managed by GSAM BV with PIE status do not have an audit committee. The absence of an audit committee does not imply that the associated tasks are eliminated; rather, they must be allocated elsewhere within the GSAM BV organization. The overview below outlines the key supervisory duties of the audit committee. Within GSAM BV, these duties will be carried out by the meeting of holders of priority shares, Goldman Sachs Fund Holdings B.V.

- Procedure for appointing the independent auditor

The audit committee is responsible for establishing the procedure for selecting the independent auditor.

- Reporting by the independent auditor

The audit committee is tasked with reviewing and discussing the reports from the independent auditor, as well as monitoring the proper follow-up.

- Monitoring the independence of the independent auditor

The audit committee is responsible for monitoring the independence of the independent auditor, both prior to and during the audit period.

- Approval of non-audit services.

In addition to regular audit activities, the independent auditor also performs other annual tasks, known as non-audit services. The audit committee is responsible for prior approval of such additional services when conducted by the independent auditor.

## 2.19 Principal risks and uncertainties

Investing in the Sub-fund entails financial opportunities as well as financial risks. The value of investments can both rise and fall, and shareholders of the Sub-fund may receive less than they invested. Diversification of investments is expected to have a mitigating effect on these risks.

A comprehensive overview of the risks, categorised as 'high, medium, and low' risks, associated with the Sub-fund is provided in the prospectus. In the event of new regulations regarding risk management, additional information will be included. The main risks faced by the Sub-fund are:

### Market risk

The Sub-fund is sensitive to changes in the value of investments due to fluctuations in prices in financial markets such as equities or fixed-income markets (market risk). Additionally, prices of individual instruments in which the Sub-fund invests may also fluctuate. If the Sub-fund utilises derivatives as described under 'Investment Policy', these may be employed for both hedging risks and efficient portfolio management. This may involve leveraging, thereby increasing the Sub-fund's sensitivity to market movements.

To mitigate market risks, investments are diversified across various countries, sectors, and/or companies. An overview of the portfolio composition as of each balance sheet date is provided in the Composition of Investments.

The section 'Sub-fund specific developments in 2024' of the management report includes further details on the potential use of derivatives during the reporting period.

Volatility is expressed as the standard deviation, which is calculated on a monthly basis over a 36-month period. A large standard deviation (= high volatility) indicates a broad range of possible outcomes. The standard deviation was 16.14% at the end of 2024 (end of 2023: 17.15%).

Tracking error is a risk measure that indicates the extent to which the portfolio's return deviates from the return of the index. Tracking error is calculated on a monthly basis over a 36-month period. The tracking error was 5.13% at the end of 2024 (end of 2023: 5.94%).

### Currency risk

If investments can be made in securities denominated in currencies other than the currency in which the Sub-fund is denominated, currency fluctuations can have both positive and negative effects on the investment result.

The section 'currency risk' in the notes to the balance sheet includes information on the currency positions in the portfolio at the balance sheet date.

### Liquidity risk

Liquidity risks may arise when a particular underlying investment is difficult to sell. Since the Sub-fund may invest in illiquid securities, there is a risk that the Sub-fund may not have the ability to release financial resources that may be needed to meet certain obligations.

During the reporting period, there were no issues regarding liquidity. The liquidity position of the Sub-fund was sufficient to manage the inflow and outflow of capital during the reporting period. It is expected that this will also be the case in the upcoming reporting period.

### Solvency and financing needs

Due to the nature and activities of the Sub-fund, there are no solvency issues or financing needs. This is due to the fact that the Sub-fund will only pay investors for redemptions based on the net asset value. In addition, no external funding will be attracted. The provisions in the prospectus allow the Sub-fund to withhold redemption payments in situation where the Sub-fund is unable to convert investments into readily available cash.

### Operational and compliance risk

The Sub-fund operates based on a control framework that complies with the Dutch Financial Supervision Act and the related regulatory requirements. The control framework is designed in line with the size of the organization and legal requirements. The control framework has been functioning effectively during the reporting period.

An assessment of the effectiveness and functioning of the control framework is performed annually. No relevant findings have emerged from this assessment, which means that no significant operational or compliance risks have occurred during the reporting period which have impaired GSAM BV's license.

### Fraud risks and corruption

Fraud is any intentional act or omission to mislead others, causing loss to the victim and/or profit to the perpetrator. Corruption is the misuse of entrusted power for personal gain, including bribery. A lack of controls in the payment process for example increases the likelihood and therefore creates the opportunity for fraud.

The asset management industry is characterised by the management of third party assets. Having access to these assets increases GSAM BV's inherent fraud and corruption risk profile. To manage this risk, GSAM BV conducts an annual fraud and corruption risk assessment to determine the identification, exposure to and management of these risks. GSAM BV concludes in its annual risk assessment that there are no high residual risks in the context of fraud and corruption. The main inherent risks identified by GSAM BV in the annual risk assessment are the following:

- Cyber risks;
- Unauthorised withdrawal of funds;
- Fraudulent invoices;
- Insider trading risk;
- Bribery.

The following measures have been taken to mitigate these inherent risks:

Cyber risks, cyber risk is recognised as a collective term which, knowingly (e.g. ransomware) or unknowingly (e.g. hacking), can lead to a withdrawal of assets. The range of techniques that a malicious person can use is extensive. That is why it is important for GSAM BV to be aware of these techniques and to test its own environment accordingly.

Unauthorised withdrawal of funds, is prevented by having authorization limits and a four (or more) eyes principles, whereby modern techniques such as 2 factor authentication are required.

Fraudulent invoices, the payment of invoices at the expense of an investment fund is only permitted if this corresponds with the prospectus. The beneficiary as well as the correctness of the amounts charged are often verifiable, through a link with the assets. Invoices must be assessed and approved in advance by budget holders, in accordance with the procurement policy. Within this process, a separation of functions has been made between ordering, entering and approving.

Insider trading risk, involves misusing information for personal gain, or having orders executed in such a way that self-enrichment can be achieved at the expense of the Sub-fund. The measures taken to prevent this are diverse, including best execution review, mandatory periodic reporting on personal investment portfolios, education in the form of mandatory training and pre-employment screening.

Bribery involves having a tender being influenced by, for example, bribes, dinners, travel and gifts. To mitigate this, GSAM BV has a strict policy, whereby anything with a value of more than fifty euros may not be accepted. Furthermore, in the context of broker execution, price and quality assessments are carried out periodically, the outcome of which is indicative of the extent to which orders are allocated to these brokers.

The residual risk, following from the risks described above, is determined by GSAM BV as 'medium' and is accepted through a formal risk acceptance.

Furthermore, there is a clear legal and operational separation between the asset manager, the external administrator, the Sub-fund and the custodian. This segregation of duties has an important preventive effect on the risk of fraud and corruption.

The aforementioned control measures are part of a larger control framework, of which various parts are periodically assessed by an external auditor via the GSAM BV ISAE 3402 report. Furthermore, GSAM BV applies the 3-lines of defence mechanism, in which risk management and internal audit continuously test and monitor the effectiveness of the administrative organization and internal control. GSAM BV also implemented various soft controls, such as tone at the top, e-learning, code of ethics and a whistleblower policy.

Goldman Sachs Group maintains a Code of Business Conduct and Ethics, supplemented by 14 Business Principles, and a compendium of internal policies to inform and guide employees in their roles. The company endorses Goldman Sachs Group's Code of Business Conduct and Ethics set out on the Goldman Sachs public website and looks to conduct its business in accordance with the highest ethical standards and in compliance with all applicable laws, rules and regulations.

### **Sustainability risks**

Sustainability risk is defined in Article 3 of Regulation (EU) 2019/2088 (the "Sustainable Finance Disclosure Regulation") as an environmental, social or governance event or condition, that if it occurs, could cause an actual or a potential material negative impact on the value of the investment. Additional details of risks not disclosed in the financial statements can be found in the prospectus.

### **Issuer default risk**

In addition to general trends in the financial markets, specific developments related to the issuer can also impact the value of an investment. Even careful security selection, for example, cannot eliminate the risk of loss due to a decline in value of the issuer's assets.

### **Risk perception**

The willingness to take risks or guarantees (risk appetite) is an integral part of the investment policy carried out during the reporting period, and as outlined in the section 'Sub-fund specific developments in 2024'.

Insight into relevant risks during the reporting period is obtained as follows:

- In the notes to the investment policy during the reporting period, the section 'risk appetite and risk policy within the investment policy' highlights the main developments, considerations, and decisions regarding the risk management policy.
- The notes to the balance sheet provide detail on specific risks related to the use of financial instruments.
- The Composition of investments overview provides information on the diversification of investments in terms of regions and currencies, as well as by individual holdings. It also includes details on interest rates and remaining maturity for fixed-income investments, offering an indication of price risks at reporting date.
- For derivative financial instruments in the portfolio at the reporting date, additional information is provided in the notes to the financial statements.
- Counterparty risk is disclosed in the notes to the balance sheet. Where applicable, information regarding the use of collateral is included.
- The currency position, as included in the notes to the balance sheet, gives insight into the extent to which the Sub-fund's assets and liabilities are denominated in euros or other currencies, including derivative financial instruments such as forward currency contracts, which help guide currency management.
- If the Sub-fund engages in securities lending, additional information is provided in the notes to the balance sheet and the notes to the profit and loss statement, by providing details on specific risks and their management.

## 2.20 Risk management

The manager applies the GSAM BV Control Framework concerning the design of the administrative organization and internal control. The GSAM BV Control Framework includes all core processes, along with the key risks associated with each process. For each of these risks, the critical controls are defined, which are regularly monitored and reviewed to ensure compliance with internal and external regulations. Significant risks are systematically identified periodically. The existing system of internal control measures mitigates these risks.

The manager's operations, insofar as they apply to the activities of the investment fund, are also focused on managing financial and operational risks. The section 'In control statement' provides further details on how the manager's operations are structured.

GSAM BV, the manager, uses a system of risk management measures to ensure that the Sub-fund, in general, and the investment portfolio, in particular, continually comply with the conditions set forth in the prospectus, the legal frameworks, and the more fund-specific internal execution guidelines. These guidelines cover aspects such as portfolio diversification, the creditworthiness of debtors, the quality of counterparties, and the liquidity of investments.

A broad and well-diversified portfolio is expected to have a stabilizing effect on identified price risks, while selection based on creditworthiness and limit monitoring enables the management of credit risks. Liquidity risks can be limited by primarily investing in liquid, publicly traded securities.

The Sub-fund may use derivative financial instruments to hedge or manage price risks, such as currency and interest rate risks. These instruments also offer opportunities for efficient portfolio management, for example, in anticipation of inflows and outflows. These derivatives can be used for risk hedging, efficient portfolio management, and enhancing returns. This may also involve leverage, which increases the Sub-fund's sensitivity to market movements. Additionally, derivatives will be used in a manner that ensures the overall portfolio remains within the investment restrictions.

## 2.21 Leverage and Value-at-Risk

In accordance with ESMA Guidelines 10-788, this Sub-fund uses the commitment approach to determine the total economic exposure. The total economic exposure must not exceed 100% of the net asset value of the Sub-fund. As indicated in the section 'Investment policy' of the prospectus, no further disclosure on this matter will be provided in the annual report.

## 2.22 Developments during the reporting period

### 2.22.1 General financial and economic developments in 2024

#### Macro

Risk assets ended 2023 with strong performance as the goldilocks macro backdrop of resilient growth in the US alongside continued disinflation across major economies continued, as well as a more dovish shift from the US Federal Reserve (Fed) towards potential rate cuts. In the first half of 2024, continued signs of improvement in global manufacturing data, robust labour markets, a resilient US economy, and expectations of policy easing by major central banks further supported investor risk appetite. Early in the first half of 2024, while the growth outlook remained benign, inflation, especially in the US, raised some concerns due to a few downside surprises in key inflation prints. However, the US began to see disinflationary progress once again in the second quarter of 2024, providing both the Fed and investors with renewed confidence in the path ahead following the string of higher-than-expected prints to start of the year. US Core PCE (Personal Consumption Expenditures Price Index, Excluding Food and Energy) averaged 0.17% in April and May versus an average reading of 0.37% in the first quarter of 2024. This progress, combined with strong earnings growth, and expectations of policy easing by major central banks supported momentum in risk assets.

In July, the macro backdrop remained fluid with slight moderation in global manufacturing/services activity, but continued disinflation progress in the US. Then, in August, financial markets were jolted by a weaker than expected US jobs print in August. The print, headlined by the US national unemployment rate (U3) rising from 4.1% to 4.3%, triggered the Sahm Rule, which indicates that the US economy has moved into recession territory whenever the 3-month moving average of the U3 unemployment rate rises by more than 0.5% from its 12-month low. As a result, panic ensued among market participants, leading to sell-off in equities and rally in safe-haven assets like US treasuries and the Japanese Yen. However, the shock proved to be short-lived as a string of data releases over the next few days and weeks provided better comfort around the strength of the US economy and labour market. September was an eventful month, as two of the biggest central banks, the Fed and People's Bank of China (PBoC), helped ease monetary policy by lowering interest rates to support domestic economies. The Fed cut its policy rate by 50bps, marking the first US rate cut since March 2020.

October was characterised by strong growth, moderating inflation, and a cooling labour market in the US. In November, the key market driver was the outcome of the US Presidential Elections, which saw Donald Trump and the Republican party register a clean sweep by winning the White House, Senate, and House of Representatives. Tariffs on exports to the US, clampdown on illegal immigration, extension of Tax Cuts and Jobs Act (TCJA), boosts to US gas and oil drilling, and deregulation were the key pillars of Trump's economic and foreign policy throughout the US election campaign. This policy mix, if implemented, could potentially lead to the US growth outperformance vs. the rest of the world as higher trade uncertainty could weigh on Asian and European economies, which are more trade dependent than the US economy.

In December, global PMIs continued to point to two key themes – i) activity remains resilient as global composite PMI inched up modestly from 52.3 to 52.4, and ii) US growth relative outperformance vs. the rest of the world, largely due to the weakness in Euro Area. While the US labour market data remained mixed, it continued to show incremental signs of stabilization. The unemployment rate ticked up to 4.2% from 4.1% but other labour market indicators improved sequentially. Upside risks to inflation from any potential tariffs on exports to the US were enough for some Federal Open Market Committee (FOMC) members to revise up their inflation and policy rate expectations.

#### Monetary Policy

2023 ended with a noticeable slowdown in global inflation, leading to a somewhat dovish stance from major central banks. Strong disinflation progress and continued resilience in the labour market led many to gain further confidence in the possibility of a soft landing. Despite many investors coming into the year with expectations for an earlier and swifter start to central bank easing cycles, many of these central banks, including the Fed, tilted hawkish at the start of 2024 as inflation surprised to the upside and the strong economy gave policymakers the option to be patient around the onset of their policy easing cycle. Elsewhere, the Swiss National Bank surprised markets in March and cut policy rates by 25bps, becoming the first G10 central bank to start easing. In Asia, the Bank of Japan (BoJ) paved its own path and decided to end its negative interest rate policy at its March meeting.

In June of 2024, the European Central Bank (ECB) and the Bank of Canada started their respective easing cycles, both cutting their respective policy rates by 25bps. Continued moderation in the US inflation over the summer, paired with added stress around the sustainability of the US labour market, meant that the Fed could start its much-awaited easing cycle in September. The post-meeting statement indicated that the FOMC was “strongly committed to supporting maximum employment” alongside the 2% inflation target and that the risks to the Committee’s dual-mandate goals were roughly in balance.

In Europe, the ECB continued its rate cutting cycle in September and October. Elsewhere, in China, the PBoC announced a slew of policy measures in September to boost activity in general and property market in particular. Activity data in November offered early signs of green shoots following China’s recent policy pivot and subsequent stimulus programs. Amid all the easing, the BoJ, which had been gradually tightening monetary policy, decided to leave policy rate unchanged in September and October.

The FOMC lowered its policy rate further by 25bps in November. The Committee did not provide any strong forward guidance and refrained to comment on the implications of the new US government policies on potential monetary policy path going forward. However, Chair Powell did highlight that as the FOMC approaches levels that are close to neutral, it may be appropriate to slow down the pace of easing. In December, Powell highlighted that while the policy is still restrictive, it is getting closer to short-term neutral estimates. As a result, the FOMC is likely to be very cautious and gradual going forward in terms of pace of easing. This gradual approach was similar to the Bank of Canada, which cut rates by 50bps in December as expected but removed explicit easing bias and signalled a data dependent approach going forward.

Elsewhere in Europe, the European Central Bank lowered its growth and inflation projections at its December meeting. The policy rate was reduced by 25bps as widely expected by the markets. On the other hand, after cutting in November, the Bank of England held rates in December and reiterated that a “gradual approach” to removing policy restriction remains appropriate.

## Equity Markets

Global equities started 2024 on a strong footing with significant gains in 1Q 2024 following a strong end to 2023, with several equity indices reaching new all-time highs. Continued signs of improvement in global manufacturing activity, a resilient US economy, and still strong expectations of policy easing by major central banks in 2024 supported risk appetite. In the second quarter of 2024, global developed market equities and emerging market equities were up by 3.2% and 6.4%, respectively, following gains of 10% and 4.5% in 1Q 2024. Within developed market equities, US equities outperformed their peers once again with a gain of 4.5% in 2Q 2024, whereas Japanese equities were up by 1.7%. Euro area equities were down by 1.3% following increased uncertainty around major elections in June. Elsewhere, Chinese equities rallied at the start of 2024, outperforming most developed and emerging equity markets, but began to retreat in June.

Global developed market equities experienced modest positive returns in July, although weaker European data and a stronger JPY weighed on European and Japanese equities. In the US, a few disappointing earnings results began to cast doubts on the durability of the mega cap tech names and the future reliability of the hype around artificial intelligence. This led to a significant rotation away from mega-caps names into small-caps—the outperformance of the Russell 2000 over the NASDAQ was the largest in any month since February 2001. August saw small gains for global equities and emerging market stocks. However, at their worst on August 5—as volatility increased due to macro uncertainty—both MSCI World and MSCI EM were down 6.9% and 4.9% before staging a comeback. This uncertainty led defensive sectors like consumer staples and healthcare to outperform in the US. September saw developed market equities and emerging market equities post gains of 1.5% and 5.7% respectively. US equities outperformed, posting a gain of 2.1%, followed up by Euro area equities, which rallied 0.9%. Conversely, Japanese equities underperformed as a stronger JPY weighed on equity market performance. The MSCI China index however, delivered a significant +23% return in September with almost all these gains coming after government officials announced significant stimulus plans on September 24.

There was significant dispersion among major equity markets in November. While the global developed market equities rallied 4.9%, emerging market equities were down 2.7% reflecting higher trade uncertainty and risks of US tariffs on China and Mexico specifically. Even within developed markets, dispersion was noteworthy as the US equities were up 6% whereas Euro Area equities and Japanese equities were down slightly. Among the US sectors, consumer discretionary and financials were the best performing sectors as they rallied 13% and 11% respectively. Financials benefited from hopes of deregulation by the incoming US government. The Russell 2000 was up 11% as US small caps benefitted from risk on sentiment in the US on the back of expectations of deregulation, potential for easier anti-trust laws, and President Trump's focus on helping the domestic economy. After a significant rally in global developed market equities led by the US equities in November, December turned out to be a month of consolidation, mostly due to the hawkish comment from the Fed at the December FOMC meeting. US small cap equities gave back most of the gains from November.

## **2.22.2 Sub-fund specific developments in 2024**

### **Investment policy**

The performance included in the key figures is the net performance over the reporting period of the Sub-fund after deduction of costs. The report on the executed investment policy as described below, is based on the gross performance over the reporting period of the Sub-fund before deduction of costs.

In 2024 the portfolio made solid gains in absolute terms but lagged the performance of the MSCI World Net Index. A large part of the underperformance came in the fourth quarter. Over the full-year period the portfolio relatively better than the benchmark in Europe but underperformed in the US. Generally, it was a difficult year for stock picking in the US, which was marked by concentrated performance and strong momentum-driven markets. For our sustainable equity strategy, stock selection within the consumer sectors was a key detractor. IT and Healthcare also contributed negatively. Positive contributions came mainly from our stock selection in the Materials sector, our overweight to Information Technology, and our underweight positioning in Energy.

At stock level, among the largest detractors was Estee Lauder. Shares of the US cosmetics company fell following disappointing earnings announcements, largely due to sales headwinds in China and Asia travel retail. Global packaged food producer Nestlé was also an underperformer on weak sentiment, partly due to its defensive characteristics, and partly due to elevated spending in marketing and product innovation outside its strongholds of pet care, coffee and nutrition.

Among the best contributors were US chip manufacturer Nvidia and US insurance brokerage firm Brown & Brown. Nvidia made strong gains during the year, helped by its earnings and guidance exceeding expectations, which in turn was largely related to the company's leading industry position in AI semiconductors. Brown & Brown's stock price rose on the back of good earnings results. Its strong operating momentum was supported by insurance pricing tailwinds and good execution.

In the fourth quarter we made a number of adjustments to the portfolio, which involved the addition of several US cyclical names. As a result, we moved to an active overweight in the Industrials sector. Elsewhere, we reduced our exposure to Healthcare and Financials, while adding to IT and Utilities. In the IT sector we started a position in semiconductor and software firm Broadcom. The US-based company is a dominant player in enterprise & cloud switching, a market that benefits significantly from AI investments. In Consumer Discretionary, we added Amazon.com, the online retailer and cloud infrastructure service provider, as we believe the company will remain a structural winner in its core businesses. Among our largest exits during the period was Nestlé. We also sold out of US managed care firm Elevance Health in the Healthcare sector.

### **Risk appetite and risk policy within the investment policy**

For the Goldman Sachs Duurzaam Aandelen Fonds (NL), we believe the most fundamental risk is not knowing or fully understanding the idiosyncratic business risk of each company that we own in the portfolio. The Goldman Sachs Sustainable Equity team manages this risk through in-depth fundamental research. The process begins with thorough analysis of financial statements and public filings with additional scrutiny applied to footnotes and possible red flags. Research analysts visit companies, meet with management and engage in probing discussions of the company's operations, financial performance, and business strategy.

Over the past few years, managing non-stock specific risk has become more important than ever. Portfolio risk is monitored through various lenses, exposing stock specific and non-stock specific components, thus complementing more traditional risk breakdowns at the sector, industry and stock level. The combination of these two elements fosters a more granular and robust discussion of portfolio risk with the goal of further emphasising our stock views in the portfolio.

### **Derivatives**

During the reporting period, the Sub-fund did not use any derivatives.

### **Outlook**

For our Goldman Sachs Duurzaam Aandelen Fonds (NL), we have a long-term focus, which is why we aim to pay special attention to sustainable solutions, sustainable profitability and sustainable behaviour. We believe that companies with these characteristics should be ahead of the curve in a rapidly changing landscape. The resulting potential higher returns on invested capital and growth opportunities should help to generate long-term economic profit growth.

In the portfolio we target companies that can benefit from long-term sustainable trends, including regulatory and political actions such as SFDR in Europe or globally coordinated efforts such as the UN Global Climate Conference, as well as the rapid increase in disclosure of environmental and social metrics. We believe our active stewardship efforts should lead to improved corporate disclosure, improved risk management in the portfolio, and lead to better risk-adjusted returns.

For 2025 and beyond, we believe the portfolio is well positioned for long-term economic trends and societal shifts:

- Our sector allocation tilted towards technology, diversified financials, industrials, and healthcare;
- Within technology, we are exposed to the build-out and rising monetization of the AI ecosystem, and cloud migration growth;
- Within diversified financials, we hold businesses that we believe should benefit from growth in data analytics and increased M&A activity;
- Within industrials, we have exposure towards the continued electrification of society, and re-shoring and construction trends in the US;
- Within healthcare, we are positioned for rising expenditure on obesity and medical technology solutions

Since year-end, global markets have experienced a significant increase in volatility across all financial instruments as a result of a range of trade tariffs imposed by the Trump administration. The situation has not led to any significant impact on liquidity, nor on the operations of the Sub-fund. The market volatility has been deemed a non-adjusting event, and as such its post year end impact has not been taken into account in the recognition and measurement of the Sub-fund's assets and liabilities at 31 December 2024.

### **2.22.3 Other aspects**

#### **Subsequent events**

There have been no significant subsequent events after balance sheet date.

## 2.23 Remuneration during the reporting period

### Introduction

The following disclosures are made in accordance with the AIFMD (2011/61/EU) and UCITS Directive (2014/91/EU) and further guidance included in the ESMA Guidelines on sound remuneration policies under the AIFMD (3 July 2013/ESMA/2013/232) and UCITS Directive (14 October 2016/ESMA/2016/575). The full and detailed remuneration disclosure can be found on the website (<https://am.gs.com/en-nl/individual/creating-impact/policies-and-governance>).

### 2.23.1 Remuneration Programme Philosophy

Retention of talented employees is critical to executing the firm's business strategy successfully. Remuneration is, therefore, a key component of the costs the firm incurs to generate revenues, similar to the cost of goods sold or manufacturing costs in other industries.

The remuneration philosophy and the objectives of the remuneration programme for the firm are reflected in the Compensation Principles for The Goldman Sachs Group, Inc. ("GS Group"), as posted on the Goldman Sachs public website (<http://www.goldmansachs.com/investor-relations/corporate-governance/corporate-governance-documents/compensation-principles.pdf>).

### 2.23.2 Firmwide Compensation Frameworks

The Firmwide Performance Management and Incentive Compensation Framework, as amended from time to time ("Firmwide PM-IC Framework"), formalises the variable remuneration practices of the firm.

The primary purpose of this Firmwide PM-IC Framework is to assist The Goldman Sachs Group, Inc. ("the firm" or "Goldman Sachs Group") in assuring that its variable compensation programme does not provide "covered employees" (i.e., senior executives as well as other employees of the firm, who, either individually or as part of a group, have the ability to expose the firm to material amounts of risk) with incentives to take imprudent risks and is consistent with the safety and soundness of the firm.

In addition, the Goldman Sachs Asset Management BV Compensation Policy supplements the firm's remuneration programmes and frameworks in alignment with applicable local laws, rules and regulations. No material changes were made to GSAM BV compensation policies during the year.

### 2.23.3 Remuneration Governance

The Board of Directors of Goldman Sachs Group (the "Group Board") oversees the development, implementation and effectiveness of the firm's global remuneration practices, and it generally exercises this responsibility directly or through delegation to the Compensation Committee of the Group Board (the "Board Compensation Committee").

The Board Compensation Committee recognises the importance of using a remuneration consultant that is appropriately qualified and is determined to be independent. The independence of the remuneration consultant is reviewed and confirmed annually by the Board Compensation Committee. For 2024, the Board Compensation Committee received the advice of a remuneration consultant from Frederic W. Cook & Co. ("FW Cook").

The GSAM BV Compensation Committee (the "GSAM BV Compensation Committee") operates in line with GS Group policies and practices. The GSAM BV Compensation Committee held 8 meetings in 2024 in fulfilment of these responsibilities.

The GSAM BV Supervisory Compensation Committee oversees the development and implementation of those remuneration policies and practices of GSAM BV that are required to supplement the global Compensation Policy of Goldman Sachs Group in accordance with applicable law and regulations.

The GSAM BV Supervisory Compensation Committee works alongside the GSAM BV Compensation Committee. The GSAM BV Supervisory Compensation Committee held 6 meetings in 2024 in fulfilment of these responsibilities.

Further information with regards to Remuneration Governance, the Board Compensation Committee, the GSAM BV Compensation Committee and the GSAM BV Supervisory Compensation Committee, can be found on the website (<https://am.gs.com/en-nl/individual/creating-impact/policies-and-governance>).

#### **2.23.4 Link between Pay and Performance**

In 2024, annual remuneration for employees comprised fixed remuneration (including base salary) and variable remuneration. The firm's remuneration practices provide for variable remuneration determinations to be made on a discretionary basis. Variable remuneration is based on multiple factors and is not set as a fixed percentage of revenue or by reference to any other formula, consistent with the process outlined in the Firmwide PM-IC Framework. Firmwide performance is a key factor in determining variable remuneration.

The firm is committed to aligning variable remuneration with performance, across several financial and non-financial factors. These factors include business-specific performance (as applicable), along with the performance of the firm and the individual, over the past year, as well as over prior years.

Further information with regards to the Link between Pay and Performance can be found on the website (<https://am.gs.com/en-nl/individual/creating-impact/policies-and-governance>).

#### **2.23.5 Selection and remuneration of Identified Staff**

GSAM BV selects Identified Staff (staff whose professional activities have material impact on the risk profile of Goldman Sachs Asset Management) on the basis of both AIFMD and UCITS (being staff whose professional activities have a material impact on the Dutch licensed AIF(s), and/or the UCITS and/or GSAM BV, as applicable). AIFMD and UCITS Identified Staff are selected in accordance with ESMA guidelines 2013/232 and 2016/575. Under its selection methodology, GSAM BV considers the categories as detailed in the ESMA guidelines and conducts a review of employees who have a material impact and whose total remuneration takes them into the same remuneration bracket as senior managers and risk takers.

The applied selection methodology and selection criteria for GSAM BV Identified Staff were approved by the GSAM BV Compensation Committee.

#### **2.23.6 Performance Measurement**

Performance is measured at the firmwide, business, business unit, desk and individual level as applicable. Employees are evaluated annually as part of the performance review feedback process. The process reflects evaluation of employee objectives and performance focusing on matters including but not limited to teamwork and collaboration. Further information with regards to the Performance Measurement can be found on the website (<https://am.gs.com/en-nl/individual/creating-impact/policies-and-governance>).

#### **2.23.7 Risk Adjustment**

Prudent risk management is a hallmark of the firm's culture and sensitivity to risk and risk management are key elements in assessing employee performance and variable remuneration, including as part of the performance review feedback process noted above.

The firm takes risk, including conduct risk, into account both on an ex-ante and ex-post basis when setting the amount and form of variable remuneration for employees. As indicated in the Firmwide PM-IC Framework, different lines of business have different risk profiles that inform remuneration decisions. These include credit, market, liquidity, operational, reputational, legal, compliance and conduct risks.

Guidelines are provided to assist remuneration managers when exercising discretion during the remuneration process to promote appropriate consideration of the different risks presented by the firm's businesses. Further, to ensure the independence of control function employees, remuneration for those employees is not determined by individuals in revenue-producing positions but rather by the management of the relevant control function.

Consistent with prior years, for 2024 certain employees received a portion of their variable remuneration as an equity-based award that is subject to a number of terms and conditions that could result in forfeiture or recapture.

The GSAM BV Compensation Committee also reviewed the annual compensation-related risk assessment with respect to GSAM BV. Further information with regards to Risk Adjustment can be found on the website (<https://am.gs.com/en-nl/individual/creating-impact/policies-and-governance>).

## **2.23.8 Structure of Remuneration**

### **Fixed Remuneration**

The firm has a global salary approach to ensure consistency in salary levels and to achieve an appropriate balance between fixed and variable remuneration.

### **Variable Remuneration**

For employees with total remuneration and variable remuneration above specific thresholds, variable remuneration is generally paid in a combination of cash and equity-based remuneration. In general, the portion paid in the form of an equity-based award increases as variable remuneration increases and, for Identified Staff, is set to ensure compliance with the applicable rules of the AIFMD and UCITS Directive.

The variable remuneration programme is flexible to allow the firm to respond to changes in market conditions and to maintain its pay-for-performance approach. Variable remuneration is discretionary (even if paid consistently over a period of years).

### **Equity-based Remuneration**

The firm believes that remuneration should encourage a long-term, firmwide approach to performance and discourage imprudent risk-taking. One way the firm achieves this approach is to pay a significant portion of variable remuneration in the form of equity-based remuneration that delivers over time, changes in value according to the price of GS Group shares of common stock and/or the performance of GSAM BV funds, and is subject to forfeiture or recapture. This approach encourages a long-term, firmwide focus because the value of the equity-based remuneration is realised with a dependency on long-term responsible behaviour and the financial performance of the firm.

To ensure continued alignment to the investment activities of GSAM BV, staff eligible for equity-based remuneration (including GSAM BV Identified Staff) are generally awarded both GS Group Restricted Stock Units ("RSUs") and Phantom Units under the Goldman Sachs Phantom Investment Plan ("GSAM BV Phantom Unit Plan"). Further information with regards to the Equity-based remuneration can be found on the website (<https://am.gs.com/en-nl/individual/creating-impact/policies-and-governance>).

### 2.23.9 Remuneration over 2024

Over 2024, GSAM BV has awarded a total amount of € 117.21 million to all employees. This amount consists of fixed remuneration of € 86.96 million, and variable remuneration of € 30.25 million. Per 31 December 2024 this concerned 709 employees and 5 board members of GSAM BV. The majority of employees spend their time on activities that are directly or indirectly related to the management of the funds. In total GSAM BV awarded remuneration exceeding € 1 million to 2 employees.

From the above mentioned amounts, total remuneration for the board members is € 3.77 million, of which fixed remuneration is € 1.79 million and variable remuneration is € 1.98 million.

Remuneration paid or awarded for the financial year ended 31 December 2024 comprised fixed remuneration (salaries, allowances and director fees) and variable remuneration. Information of fixed remuneration and variable remuneration is not administered on fund level, resulting in the costs above to be disclosed on aggregated total management company level.

#### Aggregated fixed and variable remuneration over 2024 and 2023

The following tables show aggregate quantitative remuneration information for all GSAM BV Identified Staff selected on the basis of AIFMD and/or UCITs for the performance year 2024.

**Table 1: Fixed and variable remuneration awarded in relation to the performance year 2024**

Amounts in € 1,000 and gross	Identified Staff qualified as Executives	Other Identified Staff
Number of employees (#)	5	26
Fixed remuneration (1)	1,786	7,736
Variable remuneration (2)	1,980	7,936
<b>Aggregate of fixed and variable remuneration</b>	<b>3,766</b>	<b>15,672</b>

**Table 2: Fixed and variable remuneration awarded in relation to the performance year 2023**

Amounts in € 1,000 and gross	Identified Staff qualified as Executives	Other Identified Staff
Number of employees (#)	5	28
Fixed remuneration (1)	1,582	7,981
Variable remuneration (2)	1,430	7,014
<b>Aggregate of fixed and variable remuneration</b>	<b>3,012</b>	<b>14,995</b>

1) Fixed remuneration per the fiscal year-end for contractual working hours. Fixed remuneration includes allowances, which includes elements such as holiday pay, and pension allowance and excludes benefits.

2) Variable remuneration includes all payments processed through payroll per respectively January 2025 (performance year 2024) or January 2024 (performance year 2023) and all conditional and unconditional awards in relation to the respective performance year, including RSUs, GSAM BV Phantom Units (a reference to the allocated Funds is not available) and carried interest.

### Remuneration information third parties

GSAM BV has (partly) outsourced its portfolio management activities to third parties. For each of these parties a Portfolio Management Agreement (PMA) has been arranged. The PMA guarantees efficient and effective services in accordance with the set agreements with these third parties. The services offered by these third parties based on the PMA are evaluated annually by GSAM BV.

The transparency that GSAM BV maintains with regard to the applied remuneration policy also includes transparency regarding the remuneration policy of third parties who carry out portfolio management activities for GSAM BV. By doing this GSAM BV is aligned with the guidance from the European regulator (ESMA). GSAM BV annually requests information from third parties in order to be able to evaluate the services and information about the applied remuneration policy by the third party is included in this request.

The overview below provides information on the remuneration policy from the parties to whom Goldman Sachs Asset Management BV has (partly) delegated portfolio management activities for AIFs and UCITS.

This includes delegated portfolio management services provided by Goldman Sachs Asset Management International and Goldman Sachs Asset Management (Singapore) Pte. Ltd., for which the services have been considered on an AIF/UCITS by AIF/UCITS basis and an estimated split for each AIF/UCITS has been incorporated into the calculations below. The pro rata remuneration is calculated by dividing the assets managed by the delegated portfolio manager on behalf of the AIF(s)/UCITS managed by GSAM BV by the total (strategy) assets managed by the delegated portfolio manager.

Delegated portfolio management (3)	Number of beneficiaries	Fixed pay (USD)	Variable pay (USD)	Total pay (USD)
Pro rata remuneration	376.6 – 381.6	1,342,112.89	359,033.68	1,701,146.57

- 3) The delegated portfolio management services have been provided by Danske Bank A/S, Nomura Asset Management Co. Ltd, J.P. Morgan Asset Management, Irish Life Investment Management Limited, State Street Global Advisors UK, Triodos Investment Management B.V., Goldman Sachs Asset Management International and Goldman Sachs Asset Management (Singapore) Pte. Ltd. Where information for FY2024 was not available, FY2023 figures have been included.

## 2.24 In control statement

As manager of Goldman Sachs Duurzaam Aandelen Fonds (NL) it is, in accordance with Article 121 of the Decree on the Supervision of the Conduct of Financial Enterprises pursuant to the Act on Financial Supervision ('Besluit gedragstoezicht financiële ondernemingen' or 'Bgfo'), our responsibility to declare that for Goldman Sachs Duurzaam Aandelen Fonds (NL) we have a description of the control framework that complies with the Dutch Financial Supervision Act and the related regulatory requirements and that the control framework has been functioning effectively during the reporting period from 1 January until 31 December 2024 and in accordance with the description.

Below we present our view on the design of the business operations of the manager related to the activities of the Fund. The control framework is designed in line with the size of the organization and legal requirements. The control framework is unable to provide absolute certainty that exceptions will never occur, but is designed to provide reasonable assurance on the effectiveness of internal controls and the risks related to the activities of the manager. The assessment of the effectiveness of the control framework is the responsibility of the manager.

With regard to the design of the administrative organisation and internal control environment (overall named 'control framework'), the manager applies the GSAM BV Control Framework. The significant risks are determined periodically in a systematic manner. The existing system of internal controls mitigates these risks.

The description of the control framework has been evaluated and is in line with legal requirements. This means that the significant risks and controls of the relevant processes have been reviewed and updated.

In practice, the assessment of the effectiveness and functioning of the control framework is performed in different ways. Management is periodically informed by means of performance indicators, which are based on process descriptions and their control measures. In addition, there is an incident and complaints procedure. In the reporting period, the effective functioning of the control framework is reviewed and tested for its operational efficiency. This concerns generic testing, which has been implemented in a process-oriented manner for the different investment funds managed by Goldman Sachs Asset Management B.V. Therefore, the executed test work can be different at the level of the individual funds. Controls are self-assessed by management for those controls in scope of the assurance report. The tests are carried out by the independent auditor. In the context of this annual report, no relevant findings have emerged.

### Reporting on business operations

During the reporting period, we have reviewed the various aspects of the control framework. During our review work, we have no observations based on which it should be concluded that the description of the design of the control framework, as referred to Article 121 of the Bgfo, does not meet the requirements as stated in the Bgfo and related regulations. We have not found internal control measures that were not effective or were not operating in accordance with their description. Based on this we, as manager for Goldman Sachs Duurzaam Aandelen Fonds (NL) declare to have a description of the control framework as referred to Article 121 of the Bgfo, which meets the requirements of the Bgfo and we declare with a reasonable degree of certainty that the business operations during the reporting period have operated effectively and in accordance with the description.

The Hague, 23 April 2025

**Goldman Sachs Asset Management B.V.**

### 3.4 Notes to the financial statements

#### 3.4.1 General notes

The annual report has been prepared in English to accommodate a broader international audience and ensure accessibility for all stakeholders. This change pertains solely to the language of the report and does not affect the financial statements, the accounting policies, or any of the disclosures.

The Sub-fund does not have any employees. GSAM BV, located in The Hague, is the manager of the Sub-fund.

The financial statements are prepared under going concern principles and in accordance with the financial statement models for investment institutions as established by the legislator. The financial statements are prepared in accordance with Title 9 Book 2 of the Dutch Civil Code and the Dutch Accounting Standards. Wording may be used that deviates from these models to better reflect the contents of the specific items. The 2024 financial statements are prepared according to the same principles for the valuation of assets and liabilities, determination of results and cash flow statement as used for the 2023 financial statements, with the exception of the change disclosed in section 3.4.2.

Goldman Sachs Duurzaam Aandelen Fonds (NL) is part of Goldman Sachs Paraplufonds 1 N.V. Goldman Sachs Paraplufonds 1 N.V. is a variable capital investment company. Goldman Sachs Paraplufonds 1 N.V. has its head office in The Hague, has its registered office in Amsterdam and is listed in the trade register of the Chamber of Commerce and Industry of The Hague.

Goldman Sachs Paraplufonds 1 N.V. is an open-end investment company structured as an umbrella fund, where the ordinary shares of Goldman Sachs Paraplufonds 1 N.V. are divided into various series, known as 'Sub-funds', in which investments can be made separately. For further details, please refer to the 'Structure' section in the Management Board Report.

Goldman Sachs Paraplufonds 1 N.V. is the legal owner of the assets allocated to the individual Sub-funds. The annual report of Goldman Sachs Paraplufonds 1 N.V. is available on the website of the manager.

When preparing the financial statements, the manager uses estimates and judgments that can be essential to the amounts included in the financial statements. If deemed necessary, the nature of these estimates and judgments, including the associated assumptions, are included in the notes to the financial statements.

The functional currency of the Sub-fund is the euro. The financial statements are presented in thousands of euros, unless stated otherwise. Amounts in whole euros are denoted with a euro symbol (€). The table below provides the key exchange rates relative to the euro.

Currency	Abbreviation	31-12-2024	31-12-2023
British Pound	GBP	0.82679	0.86651
Danish Krone	DKK	7.45705	7.45444
Hong Kong Dollar	HKD	8.04345	8.62558
Japanese Yen	JPY	162.73435	155.73095
Norwegian Krone	NOK	11.76015	11.21832
Swedish Krona	SEK	11.44117	11.13232
Swiss Franc	CHF	0.93840	0.92973
US Dollar	USD	1.03547	1.10463

#### 3.4.2 Change in valuation from bid price to mid price

Following the decision by GSAM to globally align the valuation method of the financial instruments, the valuation of the bonds and other fixed-income securities in the GSAM BV funds changed from bid price, as used in the 2023 financial statements, to valuation against mid price in the 2024 financial statements. As the Sub-fund does not have bonds and other fixed-income securities in the portfolio, there is no financial impact for the Sub-fund.

### 3.4.3 Continuity management

The objective of the continuity management of the manager is to ensure the continuity of its operations, establish trust, protect assets and entrusted resources, fulfil obligations, comply with internal and external regulations, prevent or mitigate damage and risk, and identify and manage risks to an acceptable level.

#### Liquidity monitoring

GSAM BV actively engages in liquidity monitoring to mitigate and manage liquidity risks within the Sub-funds it manages. More specifically, the risk of not being able to service redemption requests within the timelines disclosed in the prospectus. At GSAM BV, liquidity risk management follows the so-called 'Three lines of defence' model, whereby the Portfolio Management teams are responsible for managing Sub-funds in line with risk appetite, Risk Management provides independent liquidity risk modelling and oversight, and Internal Audit functions review whether these activities are performed in line with regulatory and client expectations. Risk Management (RM) manages liquidity risks in the Sub-funds on an ongoing basis by measuring, monitoring and reporting.

The GSAM BV Control Framework includes liquidity on the asset side, liquidity on the liability side and the coverage ratio which indicates how many times we expect that liquid assets are able to cover potential liabilities from redemptions. Liquidity risk is also modelled as a stress version in accordance with the ESMA guidelines for liquidity stress testing (where applicable).

The manager has the ability to use the following liquidity instruments in cases of exceptional subscriptions or redemptions within a fund. An exceptional subscription or redemption is one that is expected to have a market impact. The ultimate goal of these tools is to act in the best interest of the shareholders in the Sub-fund when executing such exceptional transactions.

- Subscription and redemption fee: This fee serves to protect existing shareholders of the Sub-fund by compensating for the purchase or sale costs (transaction costs) of the underlying 'physical' investments.
- Short term loans: To allow the Sub-fund to temporarily borrow (by utilizing the overdraft facility provided by the Sub-fund's custodian) in order to meet obligations. For UCITS funds, this is capped at a maximum of 10%.
- Suspension of NAV calculation and/or order processing: This prevents investors in the Sub-funds of the Fund from withdrawing their assets.

GSAM BV as a regulated entity is subject to two liquidity requirements:

- The liquidity requirement for investment firms based on Article 43(1) of the IFR is equal to one third of the fixed cost requirement. According to this requirement, GSAM BV hold an amount of liquid assets equivalent to at least one third of the fixed overhead requirement. These liquid assets consist of cash, cash pool receivables, and other receivables from trade debtors.
- The liquidity requirement for an AIF manager based on Article 9(8) of the AIFMD and Article 63b (2) of the Decree on prudential rules for financial undertakings operating in the financial markets (Besluit prudentiële regels Wft), where the entire regulatory capital must be held in liquid assets.

This is periodically reported to the DNB, noting that these requirements apply to GSAM BV and not to the funds it has under management.

#### Investments

The Sub-fund primarily invests in liquid assets. As a result, no issues related to marketability occurred during the reporting period. The available cash position within the Sub-fund was sufficient to manage capital inflows and outflows during the reporting period.

#### Conclusion

Currently, we do not foresee any impact on the continuity of the Sub-fund, nor that of the manager over the next 12 months. The financial statements have therefore been prepared on a going concern basis.

#### **3.4.4 Tax aspects**

The Sub-fund is part of Goldman Sachs Paraplufonds 1 N.V., which has the status of a fiscal investment institution as defined in Article 28 of the Corporate Income Tax Act 1969. The Fund is established to meet the conditions of a fiscal investment institution as referred to in Article 28 of the Corporate Income Tax Act 1969. A fiscal investment institution is subject to the special corporate income tax rate of 0%. If the Fund does not meet the conditions, the status of fiscal investment institution will generally be revoked retroactively to the beginning of the year, and the Fund will become subject to normal corporate income tax. The manager ensures, to the extent possible, that the Fund continues to comply with the conditions set forth in the law and in the Investment Institution Decree.

One of the key conditions is that the Sub-fund must distribute the distributable profit to the shareholders within eight months after the end of the financial year (distribution obligation). A positive balance of capital gains on securities and a positive balance related to the disposal of other investments (both realised and unrealised), after deducting a proportional share of the costs associated with the management of the investments, is added to the so-called reinvestment reserve and does not fall under the distribution obligation. Additionally, under certain conditions, the Sub-fund can form a rounding reserve of up to 1% of the paid-up capital, which can partially suspend the distribution obligation.

The Fund generally withholds 15% dividend tax on profit distributions. Under certain circumstances, a distribution from the reinvestment reserve may take place without withholding dividend tax. It may also occur that the Fund needs to subject share repurchases to dividend tax. Additionally, under certain circumstances, the Fund may elect to withhold dividend tax on the repurchase of shares from its shareholders.

When the Fund is required to withhold dividend tax, it may, under certain circumstances, apply a reduction to the portion that actually needs to be remitted to the tax authorities (reduction of remittance). The amount of the reduction of remittance is determined by the Dutch dividend tax and foreign withholding tax withheld from the Fund (up to a maximum of 15%). Regarding the applicable reduction of remittance related to the withheld foreign withholding tax, there is a limitation for Dutch legal entities exempt from corporate income tax participating in the Fund, and for foreign entities participating in the Fund that are entitled to a refund of Dutch dividend tax under Dutch law or a treaty or agreement for the avoidance of double taxation.

#### **3.4.5 Outsourcing of management activities**

The manager has outsourced all or part of its management activities to an affiliated external asset manager, Goldman Sachs Asset Management International (GSAMI), which is established in the United Kingdom.

The affiliated external asset manager is responsible for taking investment decisions within the framework of the investment policy as determined by the manager and as described in the prospectus of the Sub-fund, collecting and conducting research on the basis of which these decisions can be taken and giving instructions for the purchase and sale of financial instruments as well as the settlement of such transactions.

GSAMI is allowed to outsource the portfolio management for the Sub-fund to one or more group companies as a sub-delegated asset manager. GSAMI has entered into a sub-delegation agreement with Goldman Sachs Asset Management, L.P. Goldman Sachs Asset Management (Hong Kong) Ltd. and Goldman Sachs Asset Management (Singapore) Pte. Ltd.

#### **3.4.6 Securities lending**

The Sub-fund is allowed to engage in securities lending techniques to generate additional income. During the reporting period, the Sub-fund did not engage in securities lending.

### 3.4.7 Accounting policies

#### General

The valuation principles included in this paragraph provide an overview of all valuation principles of the GSAM BV funds, which, in the management's opinion, are the most critical for representing the financial position and require estimates and assumptions by the GSAM BV funds.

Unless otherwise stated, assets and liabilities are recorded at historical cost.

An asset is recognised in the balance sheet when it is probable that the future economic benefits will flow to the Sub-fund and its value can be reliably measured. A liability is recognised in the balance sheet when it is probable that its settlement will result in an outflow of resources, and the amount can be reliably measured.

An asset or liability is no longer recognised in the balance sheet if a transaction results in the transfer of all or virtually all rights to economic benefits and all or virtually all risks related to the asset or liability to a third party.

Offsetting an asset and a liability occurs only if there is a legal right to settle the asset and liability simultaneously, and the Sub-fund has the firm intention to do so.

Assets and liabilities in foreign currencies are translated at the exchange rates prevailing at the calculation date. All transactions in foreign currencies are recorded at the last known mid-market rate on the transaction date.

#### Investments

All financial instruments, as categorised in this report under investments or investments with a negative market value, are included in the balance sheet for the period during which the economic risk is attributable to the Sub-fund.

All investments are held for trading purposes and are valued at fair value, with changes in fair value recognised in the profit and loss statement.

Financial instruments are initially recognised at fair value, including (negative) share premium and directly attributable transaction costs. In subsequent valuations at fair value with changes recognised in the profit and loss statement, as is the case for investments held for trading purposes, directly attributable transaction costs are directly recognised in the profit and loss statement.

After initial recognition, financial instruments are valued as follows:

- Equities are valued at the last traded price at the end of the reporting period.
- Bonds and other fixed-income securities are valued at the last known mid price at the end of the reporting period.
- Deposits and commercial paper are valued at market value, determined based on a data provider service that delivers the most realistic price based on yield curve data from active markets.
- Investments in other GSAM BV funds are valued at the intrinsic value of the same day.
- Investments in externally managed investment funds are valued at the last known intrinsic value.
- Options are valued at market value, determined based on a data provider service that delivers the most realistic price based on yield curve and volatility data from active markets.
- The fair value of forward currency contracts is determined daily using market-standard valuation models, calculated based on the discount curve of the relevant currency.
- Futures are valued at the last traded price at the end of the reporting period.
- The fair value of interest rate swaps is based on the present value of the expected cash flows at the end of the reporting period, discounted at the market interest rate at the end of the reporting period. The net present value calculation uses the OIS curve (Overnight Indexed Swap) or another relevant interest rate curve.
- Inflation-linked swaps are valued at market value, determined based on a data provider service that delivers the most realistic price based on yield curve and inflation data from active markets.
- Total return swaps are valued at market value, based on the present value of the expected underlying cash flows, minus any interest earned or owed at the balance sheet date.

- Credit derivatives are valued at market value, determined based on a data provider service and consisting of a theoretical value using yield curve and spread data from active markets for credit derivatives not listed on an exchange, and the exchange value for credit derivatives that are listed (CDX).

For investments that do not have a stock exchange or other market listing or if the pricing is not considered representative (for example, in times of high volatility in the financial markets), the manager determines the value. This determination is made using objective and recent market information and/or commonly accepted calculation models.

Other financial instruments considered as investments are valued at market value derived from third-party market quotations and market information. If no objective market quotation is available for such financial instruments, they are valued at theoretical value calculated using objective and broadly accepted mathematical models and considering standards deemed appropriate by the manager for the respective investments.

### **Security Lending**

In securities lending, there is a temporary transfer of legal ownership to third parties. The economic rights and obligations remain with the Sub-fund, allowing the Sub-fund to retain the indirect investment results of the lent securities and receive compensation for any missed direct investment returns. As a result, these securities remain part of the investment portfolio as presented in the balance sheet and the composition of the investments during the period they are lent.

### **Collateral**

Received and provided collateral is accounted for depending on the nature of the collateral:

- Received collateral in the form of cash related to derivative transactions is recorded as Collateral in the balance sheet under Short-term liabilities.
- Provided collateral in the form of a margin account for futures is recorded in the balance sheet under Cash and cash equivalents.
- Provided collateral in the form of cash related to derivative transactions is recorded as Collateral in the balance sheet under Receivables.
- Collateral in the form of a variation margin for derivatives transacted through the central counterparty (Central counterparty (CCP)) is recorded in the balance sheet under Cash and cash equivalents and/or Payable to credit institutions.

### **Receivables and Short-term Liabilities**

All receivables and short-term liabilities have a maturity of less than one year. Receivables and short-term liabilities are initially valued at fair value. After initial recognition, receivables and short-term liabilities are valued at amortised cost, less any provision for recoverability deemed necessary for receivables.

### **Other Assets**

Other assets relate to Cash and cash equivalents, which are valued at nominal value.

## **Shareholders' equity**

Shareholders' equity and net asset value are terms used interchangeably throughout the annual report.

The manager may deviate from the principles of net asset value determination described above if, in their opinion, special circumstances make the determination of the net asset value as described practically impossible or clearly unreasonable (for example, during times of high volatility in the financial markets). In such cases, net asset value determination will be based on indices or other acceptable valuation principles.

Amounts contributed and repurchased by shareholders above the nominal value are recorded as share premium. If the calculation of the share premium reserve through share repurchase results in a negative outcome, this negative amount will be recognised under other reserves.

The revaluation reserve consists of the total unrealised positive revaluation on OTC derivatives for which no frequent market quotation is available as of the balance sheet date.

### **3.4.8 Income and expense recognition**

#### **General**

Operating income and expenses are recognised in the period to which they relate.

#### **Dividend**

Dividends on investments are recognised as income at the time the respective share is quoted ex-dividend.

#### **Interest**

Interest is attributed to the period to which it relates.

#### **Revaluation of investments**

Realised and unrealised changes in the fair value of investments, including foreign currency gains and losses, are included in the profit and loss statement under revaluation of investments. Foreign currency results on other balance sheet items are reported in the profit and loss statement under 'Currency exchange rate differences'.

The realised changes in the fair value of investments and foreign currency results are determined as the difference between the selling price and the average historical cost. The unrealised changes in the fair value of investments and foreign currency results are determined as the movement in the unrealised fair value of investments and foreign currency results during the reporting period. The reversal of the unrealised changes in the fair value of investments and foreign currency results of prior years are included in the unrealised changes in the fair value of investments and foreign currency results when realised.

#### **Subscription and redemption fee**

The transaction price of each Share Class of the Sub-fund is determined by the manager on each business day and is based on the net asset value per share of each Share Class with an upcharge (subscription fee) or discount (redemption fee) to cover the costs of purchase and sale of 'physical' investments. The subscription and redemption fee is for the protection of existing shareholders of the Sub-fund and is beneficial to the Sub-fund. When no transaction has taken place on a business day, the transaction price is equal to the net asset value per share.

Whether a subscription or redemption fee is applied depends on whether the Sub-fund, encompassing all share classes, has a net inflow (leading to a subscription fee) or outflow (leading to a redemption fee) of capital. Any difference between the actual costs of the Sub-fund and the aforementioned subscription or redemption fees will benefit or burden the Sub-fund.

### **Result per share class**

The result of a Share Class consists of revaluation of the investments, the interest received and paid, and security lending fees during the period, the declared dividends and the expenses that are attributable to the financial period. When determining the interest gains, the interest receivable on bank deposits is taken into account. Direct income and expenses are allocated to each Share Class and attributed to the relating financial period.

### **Transaction costs**

Transaction costs of investments are included in the cost price or deducted from the sales proceeds of the relevant investments.

### **3.4.9 Cash flow statement**

The cash flow statement provides insights into cash and cash equivalents originated by the Sub-fund during the reporting period and the way in which this has been used. Cash flows are split into investment activities and financing activities.

The cash flow statement is prepared according to the direct method. The cash flow statement distinguishes between cashflows from financing activities, which relate to transactions with shareholders, and cashflows from investment activities, which relate to the operational activities of the Sub-fund.

The cash and cash equivalents consist of freely available positions at banks including, if applicable, the margin accounts related to transactions in derivative instruments.

### 3.5 Notes to the balance sheet

The presented movement schedules cover the period from 1 January through 31 December

#### 3.5.1 Equities

Amount x € 1,000	2024	2023
Opening balance	905,014	836,665
Purchases	288,072	100,895
Sales	-488,805	-171,328
Revaluation	142,785	138,782
<b>Closing balance</b>	<b>847,066</b>	<b>905,014</b>

The Composition of investments section that is part of this disclosure, shows the individual equities included in the portfolio at the end of the reporting period.

#### 3.5.2 Investment funds

Amounts x € 1,000	2024	2023
Opening balance	4,157	379
Purchases	34,056	113,470
Sales	-38,235	-109,796
Revaluation	22	104
<b>Closing balance</b>	<b>-</b>	<b>4,157</b>

#### Overview of investment funds

At 31 December 2024, there are no investment funds in the portfolio. The below table shows the investment funds in which the Sub-fund was invested at the end of 2023. The participation percentage included herein represents the interest in the respective Share Class of the investment fund in which the Sub-fund participates. The investment in Liquid Euro is held for cash management purposes.

At 31 December 2023

Name of the fund	Number of shares/participations	Net asset value in €	Ownership-percentage	Value x € 1.000
Liquid Euro - Zz Cap EUR	4,056	1,024.97	0.2%	4,157
<b>Closing balance</b>				<b>4,157</b>

#### 3.5.3 Risk relating to financial instruments

Investing involves entering into transactions with financial instruments. Investing in the Sub-fund, and therefore the use of financial instruments, means both seizing opportunities and taking risks. Managing risks that are related to investing should always be seen in conjunction with the opportunities, eventually expressed in the performance. Therefore, risk management is not solely focused on mitigating risks but to create an optimal balance between performance and risk, all within acceptable limits.

The disclosures of the risks that are included in this section relate to the investments in financial instruments of the Sub-fund. The Sub-fund also invests in investment funds. For detailed risk disclosures on these investments, please refer to the annual reports of these funds.

### 3.5.3.1 Market risk

The Sub-fund is exposed to the risk of changes in valuation of its investments due to fluctuations in equity markets. Additionally, the prices of equities in which the Sub-fund invests can also fluctuate. The Sub-fund may use derivatives for the purpose of hedging, efficient portfolio management, and increasing returns. The use of derivatives may involve leverage, which increases the Sub-fund's sensitivity to market movements.

The Sub-fund invests in investment funds and, through these funds, is indirectly exposed to market risk. The market risk described below relates to the Sub-fund's own investments in equities as well as derivatives.

Insights into these risks in the report can be obtained as follows:

- The Composition of investment provides information on the degree of diversification of investments by individual name per currency. Additionally, the market risk section includes the allocation by country.

### Country breakdown

The table below shows the country allocation of the equity portfolio.

Country	Value x € 1,000 31-12-2024	% Net asset value	Value x € 1,000 31-12-2023	% Net asset value
United States	657,887	77.1	628,191	68.9
United Kingdom	47,107	5.5	33,990	3.7
Netherlands	46,296	5.4	57,125	6.3
Japan	26,225	3.1	24,790	2.7
Denmark	10,543	1.2	22,457	2.5
Switzerland	-	-	50,965	5.6
Other countries (<2.5%)	59,008	7.0	87,496	9.7
<b>Total</b>	<b>847,066</b>	<b>99.3</b>	<b>905,014</b>	<b>99.4</b>

### 3.5.3.2 Currency risk

Currency risk is the risk that the value of a financial instrument may fluctuate due to changes in exchange rates. The overview of the currency position provides the breakdown of the net asset value of the Sub-fund to the various currencies, including, where applicable, positions in derivatives like forward currency contracts that are used to manage the currency position.

### Currency position

The currency position includes, where applicable, the currency position of (the Sub-fund's interest in) the underlying investment funds as of the end of the reporting period. An amount listed under currency forward contracts represents the net amount of the contracts entered into in the respective currency.

At 31 December 2024

Base currency	Gross x 1,000	Forward Currency Contract x 1,000	Net x 1,000	Net x € 1,000	% net asset value
USD	681,300	-	681,300	657,943	77.1%
EUR	83,703	-	83,703	83,703	9.8%
GBP	38,949	-	38,949	47,107	5.5%
JPY	4,267,858	-	4,267,858	26,225	3.1%
Other currencies				38,134	4.5%
<b>Total</b>				<b>853,112</b>	<b>100.0%</b>

At 31 December 2023

Base currency	Gross x 1,000	Forward Currency Contract x 1,000	Net x 1,000	Net x € 1,000	% net asset value
USD	694,020	-	694,020	628,272	68.9%
EUR	102,666	-	102,666	102,666	11.3%
CHF	47,394	-	47,394	50,976	5.6%
GBP	29,464	-	29,464	34,002	3.7%
JPY	3,860,806	-	3,860,806	24,791	2.7%
Other currencies				70,707	7.8%
<b>Total</b>				<b>911,414</b>	<b>100.0%</b>

The percentage listed under 'Other currencies' represents the total of all currencies that individually account for less than 2.5% of the net asset value and where no currency forward contracts have been used.

### 3.5.3.3 Credit risk

Credit risk is the risk arising from the fact that a specific counterparty may not be able to fulfil its obligations under contracts relating to financial instruments. The Sub-fund directly invests in equities and, as a result, is not exposed to significant credit risk.

The total amount of the maximum credit risk of the Sub-fund is 6,844 (2023: 2,775).

### Securities lending

Securities may be lent out. There is no restriction on the percentage of securities that can be lent. The Sub-fund incurs a settlement risk from lending securities, as described above under credit risk.

As of the balance sheet date, no securities have been lent out.

### 3.5.3.4 Counterparty risk

The Sub-fund is inherently exposed to counterparty risk concerning all assets on the balance sheet. For the various assets with a substantial financial interest, the following can be explained:

- Investments in listed securities are held by The Bank of New York Mellon, which serves as the custodian.
- For the counterparty risk related to investments in investment funds, we refer to the annual report of the respective investment fund.
- Cash and cash equivalents are held with banks that generally have at least an investment-grade rating.

### 3.5.3.5 Investment by valuation method

Below is the breakdown of the investment portfolio by valuation method:

Amounts x € 1,000	31-12-2024	31-12-2023
Quoted market prices	847,066	905,014
Other method*	-	4,157
<b>Closing balance</b>	<b>847,066</b>	<b>909,171</b>

\* Under 'Other Method,' investments in other investment funds are included. These investments are valued daily at intrinsic value. The presented figure is the value at year-end.

**3.5.3.6 Investments by marketability**

Below is the breakdown of the investment portfolio by marketability:

Amounts x € 1,000	31-12-2024	31-12-2023
Quoted market prices	847,066	905,014
Other*	-	4,157
<b>Closing balance</b>	<b>847,066</b>	<b>909,171</b>

\* This may include, among others, units of participation in other investment institutions, commercial paper, deposits with credit institutions, and OTC derivatives.

**3.5.4 Receivables**

All receivables have a remaining maturity of less than one year.

**Receivable for investment transactions**

These receivables arise due to the fact that there are a few days between the sale date and the receipt date of the payment for investment transactions.

**Dividends receivable**

Dividends receivables are accrued, not yet received, dividends on investments.

**Other receivables**

Amounts x € 1,000	31-12-2024	31-12-2023
Withholding tax*	1,967	2,141
Other receivables	19	5
<b>Closing balance</b>	<b>1,986</b>	<b>2,146</b>

\* Withholding tax receivables have a maturity of less than one year, but it can take longer to receive the amounts causing them to stay on the balance sheet for a longer period.

**3.5.5 Other assets****Cash and cash equivalents**

This concerns freely available bank accounts. Interest on these bank accounts is received or paid based on current market interest rates.

### 3.5.6 Shareholders' equity

For the period 1 January through 31 December 2024

Amounts x € 1,000	Class P	Class O	Class I	Class G	Class Z	Class D	Class T	Total
<b>Issued capital</b>

**3.5.8 Off-balance sheet rights and obligations**

At the reporting date, there are no off-balance sheet rights and obligations.

## 3.6 Notes to the profit and loss statement

### 3.6.1 Investment income

#### Dividend

Dividend includes gross cash dividends net of non-recoverable foreign withholding tax and compensation for missed direct investment returns on securities lent.

Additionally, this may include the offsetting via tax credits of Dutch and foreign withholding tax, which is possible under the status of the Sub-fund as a fiscal investment institution as recognised by the Dutch tax authorities.

### 3.6.2 Revaluation of investments

Amounts x € 1.000	2024	2023
Realised gains equities	187,402	42,540
Unrealised gains equities	91,716	196,686
Realised losses equities	-39,253	-20,591
Unrealised losses equities	-97,080	-79,853
Realised gains investment funds	31	95
Unrealised gains investment funds	-	9
Unrealised losses investment funds	-9	-
<b>Total revaluation of investments</b>	<b>142,807</b>	<b>138,886</b>
Realised revaluation of investments	148,180	22,044
Unrealised revaluation of investments	-5,373	116,842
<b>Total revaluation of investments</b>	<b>142,807</b>	<b>138,886</b>

### 3.6.3 Other result

#### Currency exchange rate differences

Currency exchange rate differences is the amount resulting from foreign currency translation on other balance sheet items.

#### Interest other

Interest other relates to the interest earned on cash and cash equivalents during the reporting period.

#### Subscription and redemption fee

Subscription and redemption fee relates to the fees charged to shareholders for the subscription or redemption of shares in a Sub-fund. This fee is calculated as a percentage-based entry or exit fee on the net asset value per share to protect existing shareholders of the Sub-fund and is beneficiary to the Sub-fund.

Amounts x € 1,000	2024	2023
Subscription and redemption fee	124	101

The applicable subscriptions and redemption fees during the reporting period are included in the schedule below.

Subscription and redemption fee	Percentage	Applicable from	Valid through
Subscription fee	0.08%	1 January 2024	24 June 2024
	0.11%	24 June 2024	16 December 2024
	0.05%	16 December 2024	31 December 2024
Redemption fee	0.05%	1 January 2024	24 June 2024
	0.07%	24 June 2024	16 December 2024
	0.05%	16 December 2024	31 December 2024

### **3.6.4 Operating expenses**

#### **Operating costs**

The operating costs consist of the management fee, the fixed service fee and other costs. These costs are further explained in the notes for each Share Class, included in this annual report.

#### **Interest other**

Interest other relates to the interest accrued during the reporting period on payables to credit institutions.

### 3.7 Other general notes

#### 3.7.1 Transaction costs

Amounts x € 1,000	2024	2023
Quantifiable transaction costs charged to the Sub-fund	195	89

This relates to the costs incurred when buying and selling investments. The transaction costs are included in the purchase cost of the acquisitions and the sale proceeds of the disposals and are recognised in the results through changes in the value of investments. Non-quantifiable costs, which may be embedded in transactions involving derivative financial instruments, are not included in the above amounts.

No costs are involved with transactions in Liquid Euro.

#### 3.7.2 Portfolio turnover ratio

	2024	2023
Purchases of investments	322,128	214,365
Sales of investments	527,040	281,124
<b>Total of investment transactions</b>	<b>849,168</b>	<b>495,489</b>
Subscriptions	12,763	59,705
Redemptions	210,549	122,172
<b>Total of subscription and redemption of shares</b>	<b>223,312</b>	<b>181,877</b>
<b>Portfolio turnover</b>	<b>625,856</b>	<b>313,612</b>
Average net asset value of the Sub-fund	893,625	868,436
<b>Portfolio turnover ratio</b>	<b>70</b>	<b>36</b>

The portfolio turnover ratio (PTR) expresses the ratio between the total volume of investment transactions and the average net asset value of the Sub-fund. The ratio aims to indicate the turnover rate of the portfolio of an investment fund and serves as a measure of both the level of active portfolio management and the resulting transaction costs.

In calculating the total volume of investment transactions, the sum of purchases and sales of investments is reduced by the sum of subscriptions and redemptions of shares. All investment categories are included except for deposits. The average net asset value of the Sub-fund is determined as the weighted average of the net assets on a daily basis, based on the number of days the net asset value calculation takes place during the reporting period.

### 3.7.3 Related parties

As part of the investment policy of a Sub-fund, related parties may be engaged to provide services.

Related parties in this context refer to all companies and other business units that are part of The Goldman Sachs Group, Inc.

This includes, among other things, the management of a Sub-fund, the execution of investment transactions, the placement and raising of liquid assets, the taking out of loans, and the execution of securities lending activities. These services are provided at arm's length.

During the reporting period, the following services from related parties were utilised:

- Management fees are charged for the management activities of Share Classes P, O, I, G, and T. For details on the percentage, please refer to the information per share class in this annual report.
- In executing the investment policy, the Sub-fund may engage buy and sell transactions in other GSAM BV funds, as further detailed in the balance sheet notes. The total of these transactions for the reporting period amounts to 8.5% of the total transaction volume for the reporting period.
- The manager has outsourced all or part of its management activities to an affiliated external asset manager, Goldman Sachs Asset Management International (GSAMI) which is established in the United Kingdom, as explained in 3.4.5 Outsourcing of management activities.

### 3.7.4 Trailer fee, soft dollar arrangements and commission sharing agreements

#### Trailer fee

During the reporting period, no specific agreements regarding trailer fees were in effect, and no amounts were credited to the manager of the Sub-fund in this regard.

#### Soft dollar arrangements

A soft dollar arrangement occurs when a financial service provider supplies products, such as research information, to the asset manager as part of the services related to executing investment transactions. GSAM BV does not use these arrangements. GSAM BV itself covers the costs of the necessary research for the funds it fully manages. This also applies to directly affiliated entities with GSAM BV within Europe. For other affiliated entities within Goldman Sachs Asset Management and third parties involved in managing the funds, they may, under certain circumstances, use soft dollar arrangements. When an affiliated entity or a third party receives such information in their work for our funds, there may not be an underlying contractual agreement.

#### Commission sharing agreements

GSAM BV does not use commission sharing agreements for the Sub-funds that are fully managed by GSAM BV or its directly affiliated entities within Europe. The same applies for other affiliated entities within Goldman Sachs Asset Management and third parties Goldman Sachs Asset Management as described in the paragraph soft dollar arrangements.

**3.7.5 Appropriation of the result**

In the upcoming general meeting, a dividend distribution of the following amounts per Share Class will be proposed:

Share Class P (in €):	1,511,000
Share Class I (in €):	595,000
Share Class G (in €):	820,000
Share Class Z (in €):	2,125,000
Share Class O (in €):	40,000
Share Class D (in €):	3,701,000
Share Class T (in €):	182,000

The dividend amount per share will be calculated shortly before the general meeting. The calculated dividend per share will then be presented to the general meeting for formal approval. The dividend distribution will be subject to a 15% withholding tax. The amount of the net result that is not distributed as dividends will be allocated to the other reserves of the respective Share Class of the Sub-fund.

**3.7.6 Subsequent events**

There have been no significant subsequent events after balance sheet date.

### 3.8 Notes to Share Class P

Management fee	-1,485	-1,260
Other expenses	-276	-239
Interest expenses	-1	-1
	<b>550</b>	<b>464</b>
Revaluation of investments	33,038	28,789
<b>Closing balance</b>	<b>206,292</b>	<b>201,997</b>

#### 3.8.2 Net asset value

	31-12-2024	31-12-2023	31-12-2022
Net asset value (x € 1,000)	206,292	201,997	168,735
Shares outstanding (number)	2,777,333	3,156,549	3,080,035
Net asset value per share (in €)	74.28	63.99	54.78

#### 3.8.3 Performance

For the period 1 January through 31 December

	2024	2023	2022
Net performance Share Class (%)	17.23	17.79	-20.09
Performance of the index (%)	26.60	19.60	-12.78
Relative performance (%)	-9.37	-1.81	-7.31

#### 3.8.4 Expenses

For the period 1 January through 31 December

Amounts x € 1,000	2024	2023
Management fee	1,485	1,260
Fixed service fee	276	234
Other costs	-	5
<b>Total operating costs Share Class P</b>	<b>1,761</b>	<b>1,499</b>

The management fee for Share Class P of the Sub-fund is 0.70% per year, calculated on a daily basis over the total net asset value of the Share Class at the end of each day.

The fixed service fee for Share Class P of the Sub-fund is 0.13% per year, calculated on a daily basis over the total net asset value of the Share Class at the end of each day.

The fixed service fee serves to compensate for regular and/or recurring expenses incurred by the Sub-fund, such as the costs of administration, reporting (also understood to include the costs of data provision and the processing and calculation of the financial data of the investment fund), the safe-keeping of the assets, the auditor, the supervision, any stock exchange listing, making payments, publications, shareholder meetings, legal proceedings including any class actions, fee sharing arrangements within the scope of securities lending, the costs of collateral management activities as well as external advisers and service providers, such as – where appropriate – the Fund Agent and Transfer Agent. Where applicable, the fixed service fee also includes costs included in the value of investment funds.

For 2023, an amount of 5 is included under other costs related to expenses of the implementation of regulatory requirements under the SFDR and the EU Taxonomy Regulation.

The audit fees attributable to Share Class P for 2024 are included in the fixed service fee and amount to 4 (2023: 3) for the audit of the financial statements and 1 (2023: 1) for other audit engagements. There are no audit fees related to advisory or other non-audit services.

### Cost comparison

According to RJ 615.405, a comparative overview of normative costs and actual costs must be included. Normative costs are those incurred according to the prospectus, categorised by type. Since the management fee is calculated as a percentage of the total net asset value of the Share Class, the prospectus does not specify an absolute level for these costs. The percentage used during the reporting period is the same as the percentage stated in the prospectus.

In addition to the management fee, a fixed service fee is charged to the Share Class P, which is also calculated as a percentage of the total net asset value of the Share Class. For this reason, a comparative overview of the cost level with that specified in the prospectus is not included in this annual report. The percentage used during the reporting period is the same as the percentage stated in the prospectus.

In addition to the fixed service fee, incidental and extraordinary costs related to the implementation of significant changes in applicable regulations have been charged to the Sub-fund in 2023. The prospectus specifies that these costs may not exceed 0.02% of the net asset value on an annual basis. The allocated costs are below 0.02%.

### Ongoing charges figure

The Ongoing charges figure is a cost ratio that shows the costs incurred by the Share Class during the reporting period as a percentage of the average net asset value of the Share Class.

The Sub-fund invests directly or indirectly in other UCITS or investment funds. The costs associated with these UCITS or investment funds are included in the overall cost calculation of the Share-class. For Share Class P of the Sub-fund, these costs are included in the fixed service fee.

In calculating the Ongoing charges figure, costs associated with executing investment transactions are not included as part of the costs but are included in the investment purchases and sales amounts. Subscription and redemption fees are also excluded from the calculation of the Ongoing charges figure.

The average net asset value is determined as the weighted average of net asset value on a daily basis, based on the number of days on which the net asset value is calculated during the reporting period.

	2024	2023
Management fee	0.70%	0.70%
Other costs	0.13%	0.13%
<b>Total Share Class P</b>	<b>0.83%</b>	<b>0.83%</b>

The component 'Other costs' includes the fixed service fee and other costs as detailed in the 'Expenses' section.

### 3.9 Notes to Share Class O

Net asset value (x € 1,000)	1,626	4,709	4,017
Shares outstanding (number)	23,132	77,772	77,101
Net asset value per share (in €)	70.29	60.55	52.10

#### 3.9.3 Performance

For the period 1 January through 31 December

	2024	2023	2022
Net performance Share Class (%)	17.53	18.09	-19.89
Performance of the index (%)	26.60	19.60	-12.78
Relative performance (%)	-9.07	-1.51	-7.11

#### 3.9.4 Expenses

For the period 1 January through 31 December

Amounts x € 1,000	2024	2023
Management fee	15	20
Fixed service fee	4	6
<b>Total operating costs Share Class O</b>	<b>19</b>	<b>26</b>

The management fee for Share Class O of the Sub-fund is 0.45% per year, calculated on a daily basis over the total net asset value of the Share Class at the end of each day.

The fixed service fee for Share Class O of the Sub-fund is 0.13% per year, calculated on a daily basis over the total net asset value of the Share Class at the end of each day.

The fixed service fee serves to compensate for regular and/or recurring expenses incurred by the Sub-fund, such as the costs of administration, reporting (also understood to include the costs of data provision and the processing and calculation of the financial data of the investment fund), the safe-keeping of the assets, the auditor, the supervision, any stock exchange listing, making payments, publications, shareholder meetings, legal proceedings including any class actions, fee sharing arrangements within the scope of securities lending, the costs of collateral management activities as well as external advisers and service providers, such as – where appropriate – the Transfer Agent. Where applicable, the fixed service fee also includes costs included in the value of investment funds.

The audit fees attributable to Share Class O for 2024 are included in the fixed service fee and amount to <1 (2023: <1) for the audit of the financial statements and <1 (2023: <1) for other audit engagements. There are no audit fees related to advisory or other non-audit services.

### Cost comparison

According to RJ 615.405, a comparative overview of normative costs and actual costs must be included. Normative costs are those incurred according to the prospectus, categorised by type. Since the management fee is calculated as a percentage of the total net asset value of the Share Class, the prospectus does not specify an absolute level for these costs. The percentage used during the reporting period is the same as the percentage stated in the prospectus.

In addition to the management fee, a fixed service fee is charged to the Share Class O, which is also calculated as a percentage of the total net asset value of the Share Class. For this reason, a comparative overview of the cost level with that specified in the prospectus is not included in this annual report. The percentage used during the reporting period is the same as the percentage stated in the prospectus.

In addition to the fixed service fee, incidental and extraordinary costs related to the implementation of significant changes in applicable regulations have been charged to the Sub-fund in 2023. The prospectus specifies that these costs may not exceed 0.02% of the net asset value on an annual basis. The allocated costs are below 0.02%.

### Ongoing charges figure

The Ongoing charges figure is a cost ratio that shows the costs incurred by the Share Class during the reporting period as a percentage of the average net asset value of the Share Class.

The Sub-fund invests directly or indirectly in other UCITS or investment funds. The costs associated with these UCITS or investment funds are included in the overall cost calculation of the Share-class. For Share Class O of the Sub-fund, these costs are included in the fixed service fee.

In calculating the Ongoing charges figure, costs associated with executing investment transactions are not included as part of the costs but are included in the investment purchases and sales amounts. Subscription and redemption fees are also excluded from the calculation of the Ongoing charges figure.

The average net asset value is determined as the weighted average of net asset value on a daily basis, based on the number of days on which the net asset value is calculated during the reporting period.

	2024	2023
Management fee	0.45%	0.45%
Other costs	0.13%	0.13%
<b>Total Share Class O</b>	<b>0.58%</b>	<b>0.58%</b>

The component 'Other costs' includes the fixed service fee and other costs as outlined in the 'Expenses' section.

### 3.10 Notes to Share Class I

#### 3.10.1 Statement of changes in net asset value

For the period 1 January through 31 December

Amounts x € 1,000	2024	2023
<b>Opening balance</b>	<b>49,967</b>	<b>42,975</b>

Revaluation of investments	8,209	7,472
<b>Closing balance</b>	<b>54,626</b>	<b>49,967</b>

#### 3.10.2 Net asset value

	31-12-2024	31-12-2023	31-12-2022
Net asset value (x € 1,000)	54,626	49,967	42,975
Shares outstanding (number)	184,456	196,102	195,084
Net asset value per share (in €)	296.15	254.80	220.29

#### 3.10.3 Performance

For the period 1 January through 31 December

	2024	2023	2022
Net performance Share Class (%)	17.41	17.98	-19.97
Performance of the index (%)	26.60	19.60	-12.78
Relative performance (%)	-9.19	-1.62	-7.19

#### 3.10.4 Expenses

For the period 1 January through 31 December

Amounts x € 1,000	2024	2023
Management fee	346	302
Other costs	15	14
<b>Total operating costs Share Class I</b>	<b>361</b>	<b>316</b>

The management fee for Share Class I of the Sub-fund is 0.65% per year, calculated on a daily basis over the total net asset value of the Share Class at the end of each day.

The other costs concern regular and/or recurring expenses as well as non-recurring and extraordinary expenses of the Sub-fund, such as the costs of administration, reporting (also understood to include the costs of data provision and the processing and calculation of the financial data of the investment fund), the safe-keeping of the assets, the auditor, the supervision, any stock exchange listing, making payments, publications, shareholder meetings, legal proceedings including any class actions, fee sharing arrangements within the scope of securities lending, the costs of collateral management activities as well as external advisers and service providers, such as – where appropriate – the Transfer Agent.

The other costs also include regular and/or ongoing costs of <1 (2023: <1) for investing in GSAM BV funds.

For 2023, an amount of 1 is included under other costs related to expenses of the implementation of regulatory requirements under the SFDR and the EU Taxonomy Regulation.

The audit fees attributable to Share Class I for 2024 amount to 1 (2023: 1) for the audit of the financial statements and <1 (2023: <1) for other audit engagements. There are no audit fees related to advisory or other non-audit services.

### Cost comparison

According to RJ 615.405, a comparative overview of normative costs and actual costs must be included. Normative costs are those incurred according to the prospectus, categorised by type. Since the management fee is calculated as a percentage of the total net asset value of the Share Class, the prospectus does not specify an absolute level for these costs. The percentage used during the reporting period is the same as the percentage stated in the prospectus.

For Share Class I, the other costs are based on the actual expenses charged to the share class. Due to the relatively small size of these costs, they are not quantified separately in the prospectus. For this reason, a comparative overview with the cost level indicated in the prospectus is not included in this annual report.

### Ongoing charges figure

The Ongoing charges figure is a cost ratio that shows the costs incurred by the Share Class during the reporting period as a percentage of the average net asset value of the Share Class.

The Sub-fund invests directly or indirectly in other UCITS or investment funds. The costs associated with these UCITS or investment funds are included in the overall cost calculation of the Share-class.

In calculating the Ongoing charges figure, costs associated with executing investment transactions are not included as part of the costs but are included in the investment purchases and sales amounts. Subscription and redemption fees are also excluded from the calculation of the Ongoing charges figure.

The average net asset value is determined as the weighted average of net asset value on a daily basis, based on the number of days on which the net asset value is calculated during the reporting period

	2024	2023
Management fee	0.65%	0.65%
Other costs	0.03%	0.03%
<b>Total Share Class I</b>	<b>0.68%</b>	<b>0.68%</b>

The component 'Other costs' includes other costs as outlined in the 'Expenses' section. Additionally, it includes costs that are embedded in the value of investment funds in which the Sub-fund has participated during the reporting period. The ongoing charges embedded in the value of these investment funds for this share class during the reporting period are smaller than 0.01% (2023: <0.01%).

### 3.11 Notes to Share Class G

For the period 1 January through 31 December

Amounts x € 1,000	2024	2023
Management fee	619	565
Other costs	22	19
<b>Total operating costs Share Class G</b>	<b>641</b>	<b>584</b>

The management fee for Share Class G of the Sub-fund is 0.84% per year, calculated on a daily basis over the total net asset value of the Share Class at the end of each day.

The other costs concern regular and/or recurring expenses as well as non-recurring and extraordinary expenses of the Sub-fund, such as the costs of administration, reporting (also understood to include the costs of data provision and the processing and calculation of the financial data of the investment fund), the safe-keeping of the assets, the auditor, the supervision, any stock exchange listing, making payments, publications, shareholder meetings, legal proceedings including any class actions, fee sharing arrangements within the scope of securities lending, the costs of collateral management activities as well as external advisers and service providers, such as – where appropriate – the Transfer Agent.

The other costs also include regular and/or ongoing costs of <1 (2023: <1) for investing in GSAM BV funds.

For 2023, an amount of 2 is included under other costs related to expenses of the implementation of regulatory requirements under the SFDR and the EU Taxonomy Regulation.

The audit fees attributable to Share Class G for 2024 amount to 1 (2023: 1) for the audit of the financial statements and <1 (2023: <1) for other audit engagements. There are no audit fees related to advisory or other non-audit services.

### Cost comparison

According to RJ 615.405, a comparative overview of normative costs and actual costs must be included. Normative costs are those incurred according to the prospectus, categorised by type. Since the management fee is calculated as a percentage of the total net asset value of the Share Class, the prospectus does not specify an absolute level for these costs. The percentage used during the reporting period is the same as the percentage stated in the prospectus.

For Share Class G, the other costs are based on the actual costs incurred by the Share Class. Due to the relatively minor scale of these costs, they are not further quantified in the prospectus. For these reasons, a comparative overview with the cost level specified in the prospectus is not included in this annual report.

### Ongoing charges figure

The Ongoing charges figure is a cost ratio that shows the costs incurred by the Share Class during the reporting period as a percentage of the average net asset value of the Share Class.

The Sub-fund invests directly or indirectly in other UCITS or investment funds. The costs associated with these UCITS or investment funds are included in the overall cost calculation of the Share-class.

In calculating the Ongoing charges figure, costs associated with executing investment transactions are not included as part of the costs but are included in the investment purchases and sales amounts. Subscription and redemption fees are also excluded from the calculation of the Ongoing charges figure.

The average net asset value is determined as the weighted average of net asset value on a daily basis, based on the number of days on which the net asset value is calculated during the reporting period.

	2024	2023
Management fee	0.84%	0.84%
Other costs	0.03%	0.03%
<b>Total Share Class G</b>	<b>0.87%</b>	<b>0.87%</b>

The component 'Other costs' includes other costs as outlined in the 'Expenses' section. Additionally, it includes costs that are embedded in the value of investment funds in which the Sub-fund has participated during the reporting period. The ongoing charges embedded in the value of investment funds for this Share Class during the reporting period are smaller than 0.01% (2023: <0.01%).

## 3.12 Notes to Share Class Z

### 3.12.1 Statement of changes in net asset value

For the period 1 January through 31 December

Amounts x € 1.000	2024	2023
<b>Opening balance</b>	<b>224,550</b>	<b>204,561</b>
Subscriptions	2,118	28,825
Redemptions	-98,466	-39,625
Dividend	-2,477	-5,546
	<b>-98,825</b>	<b>-16,346</b>
Investment income	1,985	2,333
Other results	67	61

Other expenses	-46	-52
Interest expenses	-1	-1
	<b>1,995</b>	<b>2,330</b>
Revaluation of investments	32,887	34,005
<b>Closing balance</b>	<b>160,607</b>	<b>224,550</b>

### 3.12.2 Net asset value

	31-12-2024	31-12-2023	31-12-2022
Net asset value (x € 1,000)	160,607	224,550	204,561
Shares outstanding (number)	4,485,772	7,313,667	7,711,367
Net asset value per share (in €)	35.80	30.70	26.53

### 3.12.3 Performance

For the period 1 January through 31 December

	2024	2023	2022
Net performance Share Class (%)	18.18	18.74	-19.45
Performance of the index (%)	26.60	19.60	-12.78
Relative performance (%)	-8.42	-0.86	-6.67

### 3.12.4 Expenses

For the period 1 January through 31 December

Amounts x € 1,000	2024	2023
Other costs	56	63
<b>Total operating costs Share Class Z</b>	<b>56</b>	<b>63</b>

The other costs concern regular and/or recurring expenses as well as non-recurring and extraordinary expenses of the Sub-fund, such as the costs of administration, reporting (also understood to include the costs of data provision and the processing and calculation of the financial data of the investment fund), the safe-keeping of the assets, the auditor, the supervision, any stock exchange listing, making payments, publications, shareholder meetings, legal proceedings including any class actions, fee sharing arrangements within the scope of securities lending, the costs of collateral management activities as well as external advisers and service providers, such as – where appropriate – the Transfer Agent.

For 2023, an amount of 6 is included under other costs related to expenses of the implementation of regulatory requirements under the SFDR and the EU Taxonomy Regulation.

The other costs also include regular and/or ongoing costs of <1 (2023: <1) for investing in GSAM BV funds.

The audit fees attributable to Share Class Z for 2024 amount to 4 (2023: 4) for the audit of the financial statements and 1 (2023: 1) for other audit engagements. There are no audit fees related to advisory or other non-audit services.

### Cost comparison

According to RJ 615.405, a comparative overview of normative costs and actual costs must be included. Normative costs are those incurred according to the prospectus, categorised by type.

For Share Class Z, the other costs are based on the actual costs incurred by the Share Class. Given the relatively small size of these costs, they are not quantified in the prospectus. For this reason, a comparative overview with the cost level stated in the prospectus is not included in this annual report.

### Ongoing charges figure

The Ongoing charges figure is a cost ratio that shows the costs incurred by the Share Class during the reporting period as a percentage of the average net asset value of the Share Class.

The Sub-fund invests directly or indirectly in other UCITS or investment funds. The costs associated with these UCITS or investment funds are included in the overall cost calculation of the Share-class.

In calculating the Ongoing charges figure, costs associated with executing investment transactions are not included as part of the costs but are included in the investment purchases and sales amounts. Subscription and redemption fees are also excluded from the calculation of the Ongoing charges figure.

The average net asset value is determined as the weighted average of net asset value on a daily basis, based on the number of days on which the net asset value is calculated during the reporting period.

	2024	2023
Other costs	0.03%	0.03%
<b>Total Share Class Z</b>	<b>0.03%</b>	<b>0.03%</b>

The component 'Other costs' includes other costs as outlined in the 'Expenses' section. Additionally, it includes costs that are embedded in the value of investment funds in which the Sub-fund has participated during the reporting period. The ongoing charges embedded in the value of investment funds for this Share Class during the reporting period are smaller than 0.01% (2023: <0.01%).

### 3.13 Notes to Share Class D

#### 3.13.1 Statement of changes in net asset value

For the period 1 January through 31 December

Amounts x € 1,000	2024	2023
<b>Opening balance</b>	<b>344,088</b>	<b>340,665</b>
Subscriptions	3,406	3,885
Redemptions	-61,604	-54,005
Dividend	-3,992	-4,564
	<b>-62,190</b>	<b>-54,684</b>
Investment income	3,575	3,628
Other results	176	94
Other expenses	-	-9
Interest expenses	-2	-1
	<b>3,749</b>	<b>3,712</b>
Revaluation of investments	54,125	54,395
<b>Closing balance</b>	<b>339,772</b>	<b>344,088</b>

#### 3.13.2 Net asset value

	31-12-2024	31-12-2023	31-12-2022
Net asset value (x € 1,000)	339,772	344,088	340,665
Shares outstanding (number)	308,175	364,756	423,025
Net asset value per share (in €)	1,102.53	943.34	805.31

#### 3.13.3 Performance

For the period 1 January through 31 December

	2024	2023	2022
Net performance Share Class (%)	18.22	18.77	-19.42
Performance of the index (%)	26.60	19.60	-12.78
Relative performance (%)	-8.38	-0.83	-6.64

#### 3.13.4 Expenses

For the period 1 January through 31 December

Amounts x € 1,000	2024	2023
Other costs	-	9
<b>Total operating costs Share Class D</b>	<b>-</b>	<b>9</b>

Costs incurred by Share Class D are reimbursed to Share Class D by the manager, resulting in the costs for Share Class D of the Sub-fund being essentially netted out to zero.

For 2023, an amount of 9 is included under other costs related to expenses of the implementation of regulatory requirements under the SFDR and the EU Taxonomy Regulation.

The audit fees attributable to Share Class D for 2024 include an amount of 7 (2023: 6) for the audit of the financial statements and 1 (2023: 1) for other audit-related services. There are no audit fees related to advisory or other non-audit services. These costs have been reimbursed to the Share Class as indicated above.

### **Cost comparison**

In accordance with RJ 615.405, a comparative overview of normative costs and actual costs must be included. Normative costs are those that, by type, are specified in the prospectus.

For Share Class D of the Sub-fund, no direct or ongoing regular costs are recorded, except for costs related to the implementation of SFDR and the Taxonomy Regulation (EU) as allocated in 2023. For this reason, a comparative overview with the cost levels specified in the prospectus is not included in this annual report.

### **Ongoing charges figure**

The Ongoing charges figure is a cost ratio that shows the costs incurred by the Share Class during the reporting period as a percentage of the average net asset value of the Share Class.

As further detailed in the 'Expenses' section, costs, with the exception of those related to the implementation of SFDR and the EU Taxonomy Regulation, are covered. The impact of these costs is less than 0.005%, resulting in an ongoing charges figure for both 2024 and 2023, rounded to two decimals, of 0.00%.

### 3.14 Notes to Share Class T

#### 3.14.1 Statement of changes in net asset value

For the period 1 January through 31 December

Amounts x € 1000	2024	2023
<b>Opening balance</b>	<b>16,516</b>	<b>16,080</b>
Subscriptions	343	563
Redemptions	-3,048	-2,729
Dividend	-173	-196
	<b>-2,878</b>	<b>-2,362</b>
Investment income	171	175
Other results	8	5
Management fee	-41	-40
Custody fees	-1	-1
Other expenses	-3	-4
	<b>134</b>	<b>135</b>
Revaluation of investments	2,627	2,663
<b>Closing balance</b>	<b>16,399</b>	<b>16,516</b>

#### 3.14.2 Net asset value

	31-12-2024	31-12-2023	31-12-2022
Net asset value (x € 1,000)	16,399	16,516	16,080
Shares outstanding (number)	5,914	6,949	7,918
Net asset value per share (in €)	2,772.91	2,376.73	2,030.79

#### 3.14.3 Performance

For the period 1 January through 31 December

	2024	2023	2022
Net performance Share Class (%)	17.89	18.44	-19.65
Performance of the index (%)	26.60	19.60	-12.78
Relative performance (%)	-8.71	-1.16	-6.87

#### 3.14.4 Expenses

For the period 1 January through 31 December

Amounts x € 1,000	2024	2023
Management fee	41	40
Other costs	4	5
<b>Total operating costs Share Class T</b>	<b>45</b>	<b>45</b>

The management fee for Share Class T of the Sub-fund is 0.25% per year, calculated on a daily basis over the total net asset value of the Share Class at the end of each day.

The other costs concern regular and/or recurring expenses as well as non-recurring and extraordinary expenses of the Sub-fund, such as the costs of administration, reporting (also understood to include the costs of data provision and the processing and calculation of the financial data of the investment fund), the safe-keeping of the assets, the auditor, the supervision, any stock exchange listing, making payments, publications, shareholder meetings, legal proceedings including any class actions, fee sharing arrangements within the scope of securities lending, the costs of collateral management activities as well as external advisers and service providers, such as – where appropriate – the Transfer Agent.

The other costs also include regular and/or ongoing costs of <1 (2023: <1) for investing in GSAM BV funds.

For 2023, an amount of <1 is included under other costs related to expenses of the implementation of regulatory requirements under the SFDR and the EU Taxonomy Regulation.

The audit fees attributable to Share Class T for 2024 amount to <1 (2023: <1) for costs related to the audit of the financial statements and <1 (2023: <1) for other audit-related services. There are no audit fees related to advisory or other non-audit services.

### Cost comparison

According to RJ 615.405, a comparative overview of normative costs and actual costs must be included. Normative costs are those incurred according to the prospectus, categorised by type. Since the management fee is calculated as a percentage of the total net asset value of the Share Class, the prospectus does not specify an absolute level for these costs. The percentage used during the reporting period is the same as the percentage stated in the prospectus.

For Share Class T, other costs are based on the actual expenses charged to the share class. Due to the minor (relative) amount of these costs, they have not been specifically quantified in the prospectus. For this reason, a comparative overview with the cost level in the prospectus has not been included in these financial statements.

### Ongoing charges figure

The Ongoing charges figure is a cost ratio that shows the costs incurred by the Share Class during the reporting period as a percentage of the average net asset value of the Share Class.

The Sub-fund invests directly or indirectly in other UCITS or investment funds. The costs associated with these UCITS or investment funds are included in the overall cost calculation of the Share-class.

In calculating the Ongoing charges figure, costs associated with executing investment transactions are not included as part of the costs but are included in the investment purchases and sales amounts. Subscription and redemption fees are also excluded from the calculation of the Ongoing charges figure.

The average net asset value is determined as the weighted average of net asset value on a daily basis, based on the number of days on which the net asset value is calculated during the reporting period.

	2024	2023
Management fee	0.25%	0.25%
Other costs	0.03%	0.03%
<b>Total Share Class T</b>	<b>0.28%</b>	<b>0.28%</b>

The component 'Other costs' includes other costs as outlined in the 'Expenses' section. Additionally, it includes costs that are embedded in the value of investment funds in which the Sub-fund has participated during the reporting period. The ongoing charges embedded in the value of investment funds for this Share Class during the reporting period are smaller than 0.01% (2023: <0.01%).

The Hague, 23 April 2025

**Goldman Sachs Asset Management B.V.**

## 4. OTHER INFORMATION

### 4.1 Sustainable Finance Disclosure Regulation (SFDR)

The model for periodic disclosures for financial products under the Sustainable Finance Disclosure Regulation is included in the appendix to this annual report.

### 4.2 Statutory provisions regarding appropriation of results

According to Article 23 of the Articles of Association of Goldman Sachs Paraplufonds 1 N.V. the Management Board decides for each type of shares what part of the balance will be allocated to the additional reserve maintained for the relevant type. After the aforementioned addition, a dividend, in so far as possible, is paid on the priority shares equal to six per cent (6%) of the nominal value of these shares. There is no further distribution of profit on the priority shares. The remainder is distributed to the holders of ordinary shares of the relevant type, unless the general meeting decides otherwise.

If the aforementioned balance of income and expenses is negative, the amount is deducted from the additional reserve that is maintained for the relevant type of shares.

### 4.3 Management interest

The total personal interest in (the investments of) the Sub-fund, (if applicable, including investments in GSAM BV funds in which participation occurred) in number of shares and option rights, or nominal value in bonds, held by the Board members at 31 December 2024 and 1 January 2024, is specified as follows:

	Type	31-12-2024	1-1-2024
Goldman Sachs Duurzaam Aandelen Fonds (NL) - P	Shares	516	511

### 4.4 Independent auditor's report

The report of the independent auditor is included on the next page.

# Independent auditor's report

To: the shareholders of Goldman Sachs Duurzaam Aandelen Fonds (NL) and the meeting of holders of priority shares of Goldman Sachs Paraplufonds 1 N.V.

## Report on the audit of the financial statements 2024

### Our opinion

In our opinion, the financial statements of Goldman Sachs Duurzaam Aandelen Fonds (NL) ('the Fund') give a true and fair view of the financial position of the Fund as at 31 December 2024, and of its result for the year then ended in accordance with Part 9 of Book 2 of the Dutch Civil Code.

### What we have audited

We have audited the accompanying financial statements 2024 of Goldman Sachs Duurzaam Aandelen Fonds (NL), The Hague, included in this annual report.

The financial statements comprise:

- the balance sheet as at 31 December 2024;
- the profit and loss statement for the period 1 January through 31 December 2024; and
- the notes, comprising a summary of the accounting policies applied and other explanatory information.

The financial reporting framework applied in the preparation of the financial statements is Part 9 of Book 2 of the Dutch Civil Code.

### The basis for our opinion

We conducted our audit in accordance with Dutch law, including the Dutch Standards on Auditing. We have further described our responsibilities under those standards in the section 'Our responsibilities for the audit of the financial statements' of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

## Independence

We are independent of Goldman Sachs Duurzaam Aandelen Fonds (NL) in accordance with in accordance with the European Union Regulation on specific requirements regarding statutory audit of public-interest entities, the 'Wet toezicht accountantsorganisaties' (Wta, Audit firms supervision act), the 'Verordening inzake de onafhankelijkheid van accountants bij assuranceopdrachten' (ViO, Code of Ethics for Professional Accountants, a regulation with respect to independence) and other relevant independence regulations in the Netherlands. Furthermore, we have complied with the 'Verordening gedrags- en beroepsregels accountants' (VGBA, Dutch Code of Ethics).

## Information in support of our opinion

We designed our audit procedures with respect to fraud and going concern and the matters resulting from that, in the context of our audit of the financial statements as a whole and in forming our opinion thereon. The information in support of our opinion, such as our findings and observations related to the audit approach fraud risk and the audit approach going concern was addressed in this context, and we do not provide separate opinions or conclusions on these matters.

## Audit approach fraud risks

We identified and assessed the risks of material misstatements of the financial statements due to fraud. During our audit we obtained an understanding of Goldman Sachs Duurzaam Aandelen Fonds (NL) and its environment and the components of the internal control system. This included the Manager's risk assessment process, the Manager's process for responding to the risks of fraud and monitoring the internal control system. We refer to section 'Principal risks and uncertainties' of the management board report for the Manager's fraud risk assessment.

We evaluated the design and relevant aspects of the internal control system with respect to the risks of material misstatements due to fraud and in particular the fraud risk assessment, as well as the code of conduct and whistleblower procedures. We evaluated the design and the implementation and, where considered appropriate, tested the operating effectiveness of internal controls designed to mitigate fraud risks.

We asked members of the management board of Goldman Sachs Asset Management B.V. ('the Manager'), as well as other officers of the Manager, including the head officers of the legal affairs and compliance departments on whether they are aware of any actual or suspected fraud. This did not result in signals of actual or suspected fraud that may lead to a material misstatement. In addition, we conducted interviews to gain insight into the Manager's fraud risk assessment and the processes for identifying and responding to fraud risks and the internal controls the Manager has put in place to mitigate those risks.

As part of our process of identifying fraud risks, we evaluated fraud risk factors with respect to financial reporting fraud and misappropriation of assets. We evaluated whether these factors indicate that a risk of material misstatement due to fraud is present.

The management override of controls and the risk of fraud in revenue recognition are perceived risks of fraud. The Manager is inherently in a unique position to commit fraud, due to the ability to manipulate accounting data and prepare fraudulent financial statements by overriding controls that otherwise appear to be operating effectively.

We addressed this risk by evaluating whether there were indications of bias in the Manager's estimates, which could pose a risk of material misstatement due to fraud. With respect to the investments that are measured at fair value, we determined on the basis of external (market) information that the valuation as prepared by the Fund falls within the range that we consider acceptable. We determined that there are no indications of bias in the estimates made by the Manager.

The audit procedures included, among other things, the evaluation of the design and implementation of internal controls intended to mitigate the risk of management override of controls. We obtained amongst others audit evidence regarding the design, implementation and operating effectiveness of internal controls at both the Manager and the fund administrator by reviewing the ISAE type II report of the Manager and the SOC1 report of the fund administrator. We furthermore selected journal entries based on risk criteria, as well as other journal entries and adjustments made at the end of the reporting period and conducted specific procedures for these entries. These procedures include procedures such as validation of these entries with support obtained during our audit or with source documentation. We did not identify any significant transactions outside the normal course of business. Our audit procedures did not lead to specific indications of fraud or suspicions of fraud with respect to management override of controls.

The risk of fraud in revenue recognition is assessed by considering factors such as complexity, systematic nature, estimation uncertainty, and susceptibility to management bias. We did not identify any revenue associated with these risk factors for our audit.

We incorporated an element of unpredictability in our audit. We also reviewed correspondence with regulators. During the audit, we remained alert to indications of fraud. Furthermore, we considered the outcome of our other audit procedures and evaluated whether any findings were indicative of fraud or non-compliance with laws and regulations. If this was the case, we have re-evaluated our evaluation of the risk of fraud and its implications for our audit work.

## Audit approach going concern

As disclosed in section 'Continuity Management' in the notes to the financial statements the management board performed their assessment of the Fund's ability to continue as a going concern for at least 12 months from the date of preparation of the financial statements and has not identified events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern (hereafter: going-concern risks).

Our procedures to evaluate the management board's going-concern assessment included, amongst others:

- considered whether the Manager's going-concern assessment included all relevant information of which we were aware as a result of our audit, obtained additional substantiation and inquired with the Manager regarding the Manager's most important assumptions and inputs underlying its going-concern assessment;
- assessed the redemptions of shares after the end of the financial year and assessed whether these may give rise to continuity risks;
- reviewed the prospectus, which outlines the option for the Manager to temporarily suspend or limit requests for the redemption of shares in exceptional cases and;
- performed inquiries with the Manager as to its knowledge of going-concern risks beyond the period of the Manager's assessment.

Our procedures did not result in outcomes contrary to the Manager's assumptions and judgements used in the application of the going-concern assumption.

## Report on the other information included in the annual report

The annual report contains other information. This includes all information in the annual report in addition to the financial statements and our auditor's report thereon.

Based on the procedures performed as set out below, we conclude that the other information:

- is consistent with the financial statements and does not contain material misstatements; and
- contains all the information regarding the management board report and the other information that is required by Part 9 of Book 2 of the Dutch Civil Code.

We have read the other information. Based on our knowledge and the understanding obtained in our audit of the financial statements or otherwise, we have considered whether the other information contains material misstatements.

By performing our procedures, we comply with the requirements of Part 9 of Book 2 of the Dutch Civil Code and the Dutch Standard 720. The scope of such procedures was substantially less than the scope of those procedures performed in our audit of the financial statements.

The management board is responsible for the preparation of the other information, including the management board report and the other information in accordance with Part 9 of Book 2 of the Dutch Civil Code.

## Responsibilities for the financial statements and the audit

### Responsibilities of the management board

The management board is responsible for:

- the preparation and fair presentation of the financial statements in accordance with Part 9 of Book 2 of the Dutch Civil Code; and for
- such internal control as the management board determines is necessary to enable the preparation of the financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the management board is responsible for assessing the Fund's ability to continue as a going concern. Based on the financial reporting framework mentioned, the management board should prepare the financial statements using the going-concern basis of accounting unless the management board either intends to liquidate the Fund or to cease operations or has no realistic alternative but to do so. The management board should disclose in the financial statements any event and circumstances that may cast significant doubt on the Fund's ability to continue as a going concern.

## Our responsibilities for the audit of the financial statements

Our responsibility is to plan and perform an audit engagement in a manner that allows us to obtain sufficient and appropriate audit evidence to provide a basis for our opinion. Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error and to issue an auditor's report that includes our opinion. Reasonable assurance is a high but not absolute level of assurance, and is not a guarantee that an audit conducted in accordance with the Dutch Standards on Auditing will always detect a material misstatement when it exists. Misstatements may arise due to fraud or error. They are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

Materiality affects the nature, timing and extent of our audit procedures and the evaluation of the effect of identified misstatements on our opinion.

A more detailed description of our responsibilities is set out in the appendix to our report.

Amsterdam, 23 April 2025

PricewaterhouseCoopers Accountants N.V.

## Appendix to our auditor's report on the financial statements 2024 of the Fund

In addition to what is included in our auditor's report, we have further set out in this appendix our responsibilities for the audit of the financial statements and explained what an audit involves.

### The auditor's responsibilities for the audit of the financial statements

We have exercised professional judgement and have maintained professional scepticism throughout the audit in accordance with Dutch Standards on Auditing, ethical requirements and independence requirements. Our audit consisted, among other things of the following:

- Identifying and assessing the risks of material misstatement of the financial statements, whether due to fraud or error, designing and performing audit procedures responsive to those risks, and obtaining audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the intentional override of internal control.
- Obtaining an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management board.
- Concluding on the appropriateness of the management board's use of the going-concern basis of accounting, and based on the audit evidence obtained, concluding whether a material uncertainty exists related to events and/or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report and are made in the context of our opinion on the financial statements as a whole. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluating the overall presentation, structure and content of the financial statements, including the disclosures, and evaluating whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the management board regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

## **5. APPENDIX – MODEL FOR PERIODIC DISCLOSURES FOR FINANCIAL PRODUCTS**

The model for periodic disclosures for financial products under the Sustainable Finance Disclosure Regulation is included on the next page.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name:  
Goldman Sachs Duurzaam Aandelen  
Fonds (NL)

Legal entity identifier:  
549300Z3CRB4LKZXF003

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective ?

No

--	---

To what extent were the environmental and/or social characteristics promoted by this financial product met?

From the 1st January 2024 - 26th February 2024, the Fund/Sub-Fund promoted environmental and social characteristics during the reporting period. More specifically:

- Limited investments in companies involved in controversial activities.  
During the reporting period, the Fund/Sub-Fund did not invest in issuers that realised a certain percentage of their revenue from activities related to:
  - the development, production or maintenance in controversial weapons (0%);
  - the controversial supply of weapons (0%);
  - Small arms and military contracting (>5%);
  - the production of tobacco (≥5%) and retail (>10%);
  - the production of oil sands and controversial pipelines (>10%);
  - the extraction of thermal coal (>5%);
  - adult entertainment (>5% for production and >10% for distribution);
  - fur & specialty leather (>5% for production and >10% for distribution);
  - gambling operations (>5%) and supporting products and services (50%);
  - nuclear energy (0%, when the issuer is constructing additional nuclear-based power production installations);
  - shale oil & gas and arctic drilling (combined > 10%);
  - Power generation from non-renewable sources.

The performance of this characteristic was measured with the indicator ‘Excluding investments in issuers involved in controversial activities’.

- Screening carbon intensity  
The Fund/Sub-Fund applied screening regarding the carbon intensity of investee companies. In line with the ambition of the Fund/Sub-Fund the carbon intensity of the Fund/Sub-Fund was better than the carbon intensity of the Benchmark.  
The performance of this characteristic was measured with the indicator ‘Average weighted carbon intensity score - ISS Scope 1 + 2 + 3’.

- Water intensity  
The Fund/Sub-Fund applied screening regarding the water intensity of investee companies. In line with the

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852 establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

**Sustainability Indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

ambition of the Fund/Sub-Fund the water intensity of the Fund/Sub-Fund was better than the water intensity of the Benchmark.

The performance of this characteristic was measured with the indicator 'Average weighted water intensity score'.

- Waste intensity

The Fund/Sub-Fund applied screening regarding the waste intensity of investee companies. In line with the ambition of the Fund/Sub-Fund the waste intensity of the Fund/Sub-Fund was better than the waste intensity of the Benchmark.

The performance of this characteristic was measured with the indicator 'Average weighted waste intensity score'.

The Fund/Sub-Fund applied screening regarding the waste intensity of investee companies. In line with the ambition of the Fund/Sub-Fund the waste intensity of the Fund/Sub-Fund was better than the waste intensity of the Benchmark.

As part of ongoing efforts to optimize businesses and operations of Goldman Sachs Asset Management B.V. and The Goldman Sachs Group, Inc., Goldman Sachs Asset Management International has been appointed to provide portfolio management services to the Fund/Sub-Fund.

From 26th February - 31st December 2024, The Management Company has implemented an approach to Environmental, Social and Governance (ESG) considerations into its fundamental investment process which consists of exclusionary screens as set forth below (the "ESG Criteria").

- As part of the ESG investment process, the Management Company has not invested in companies that are, in the opinion of the Management Company, directly engaged in, and/or deriving significant revenues from the following activities, which included but were not limited to:

- Controversial weapons (including nuclear weapons)
- Extraction and/or production of certain fossil fuels (including thermal coal, oil sands, arctic oil and gas)
- Tobacco
- Alcohol
- Adult entertainment
- Gambling
- For-profit prisons
- Civilian firearms

The performance of this characteristic was measured with the indicator 'Companies invested in by the Fund/Sub-Fund that were directly engaged in, and/or derived significant revenue from excluded activities'.

- The Fund/Sub-Fund took ESG factors of each issuer into account in the investment decision-making process.

The performance of this characteristic was measured with the indicator 'average weighted ESG Rating against the benchmark'.

- Adhered to good governance, respecting human rights and labour rights, protecting the environment and prevention of bribery and corruption.

The Fund/Sub-Fund met this characteristic by assessing the extent to which the investee companies act in accordance with relevant legislation and internationally recognised standards, for example: OECD Guidelines for Multinational Enterprises, the UN Principles for Business and Human Rights and the UN Global Compact.

The performance of this characteristic was measured with the indicator 'Limiting investments in material violators of internationally recognized standards, for example: OECD Guidelines for Multinational Enterprises, the UN Guiding Principles on Business and Human Rights and UN Global Compact'.

- Screening carbon footprint

The Fund/Sub-Fund applied screening regarding the carbon footprint of investee companies. In line with the ambition of the Fund/Sub-Fund the carbon footprint of the Fund/Sub-Fund was lower compared to the Benchmark.

The performance of this characteristic was measured with the indicator 'Average weighted carbon footprint score - MSCI Scope 1 + 2 + 3'.

- Invested in sustainable investments

The Fund/Sub-Fund invested in companies or projects that contributed to an environmental or social objective based on the product contribution or operational contribution.

The performance of this characteristic was measured with the indicator 'Percentage of Sustainable Investments'.

***How did the sustainability indicators perform?***

From 1st January - 26th February 2024, the Fund/Sub-Fund used the following sustainability indicator to measure the attainment of the environmental and/or social characteristics promoted by the Fund/Sub-Fund. These sustainability indicators have performed as follows:

- Excluding investments in issuers involved in controversial activities:  
These investments have been excluded in line with the description provided in the previous question.
- Screening carbon intensity - ISS Scope 1 + 2 +3:  
Fund/Sub-Fund: 137.09  
Benchmark: 671.1
- Average weighted water intensity score:  
Fund/Sub-Fund: 276.95  
Benchmark: 4290.53
- Average weighted waste intensity score:  
Fund/Sub-Fund: 3.78  
Benchmark: 359.86

From 26th February 2024 - 31st December 2024, the Fund/Sub-Fund used the following sustainability indicators to measure the attainment of the environmental and/or social characteristics promoted by the Fund/Sub-Fund. These sustainability indicators have performed as follows:

- 0% of the companies invested in by the Fund/Sub-Fund were directly engaged in, and/or derived significant revenues from:
  - Controversial weapons (including nuclear weapons)
  - Extraction and/or production of certain fossil fuels (including thermal coal, oil sands, arctic oil and gas)
  - Tobacco
  - Alcohol
  - Adult entertainment
  - Gambling
  - For-profit prisons
  - Civilian firearms
- Limiting investments in material violators of internationally recognized standards, for example: OECD Guidelines for Multinational Enterprises, the UN Guiding Principles on Business and Human Rights and UN Global Compact:  
These investments have been excluded in line with the description provided in the previous question.
- Average weighted ESG rating versus the Benchmark.  
Fund/Sub-Fund: 3.17  
Benchmark: 2.99
- Average weighted carbon footprint of the Fund/Sub-Fund was lower compared to the Benchmark:  
Fund/Sub-Fund: 97.93 (Tons CO<sub>2</sub> / \$M EVIC)  
Benchmark: 325.05 (Tons CO<sub>2</sub> / \$M EVIC)
- 57.89% was invested in sustainable investments.

***... and compared to previous periods ?***

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Sustainability Indicator	December 31, 2023	December 31, 2024	Unit
Excluding investments in issuers involved in controversial activities <i>(as outlined above)</i>	These investments have been excluded in line with the description provided in the previous question	These investments have been excluded in line with the description provided in the previous question	N/A

Percentage of Sustainable Investments	63.06	57.89	%

***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

The consideration of investments made by the Fund/Sub-Fund as sustainable investments was determined by reference to the Management Company's Sustainable Investment Framework, which includes an assessment as to whether the investment contributes to an environmental and/or social objective. Under this framework, an investment is considered to be contributing to an environmental and/or social objective via either a product or operational contribution.

Product contribution considers either i) the proportion of an issuer's revenue dedicated to an environmentally and/or socially sustainable impact category, ii) the alignment of a product to an environmental and/or social Sustainable Development Goal (SDG), iii) best-in-class scoring of an issue(r) as against environmental and/or social opportunities themes defined by an external data provider, or iv) the percentage of taxonomy aligned revenue of the issuer. Due to availability of reliable data, the taxonomy aligned revenue route will only be used as data improves.

Operational contribution takes a thematic approach, looking at the promotion of climate transition (environmental) within the operational framework of the issuer, inclusive growth (social) within the operational framework of the issuer, operational alignment to an environmental or social SDG, or the application of a best-in-class proprietary environmental and social score.

This Fund/Sub-Fund did not target a specific category of sustainable investments but assessed all investments made pursuant to its overall investment strategy using the Sustainable Investment Framework. Hence, the sustainable investments made by this Fund/Sub-Fund may contribute to a variety of environmental and/or social objectives of the sustainable investments.

***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

Issuers that were classified as contributing to a sustainable investment were also required to meet the do no significant harm (DNSH) criteria of the Management Company's Sustainable Investment Framework. Any issuers that do not meet the DNSH test will not qualify as a sustainable investment. A proprietary quantitative or qualitative threshold for significant harm has been set for the mandatory indicators relating to investee companies for adverse impacts on sustainability factors ("PAIs") set out in the regulatory technical standards supplementing SFDR.

Additionally, all issuers with a very severe controversy are considered to be causing significant harm and excluded from qualifying as a sustainable investment.

***How were the indicators for adverse impacts on sustainability factors taken into account?***

This Fund/Sub-Fund considered principal adverse impacts on sustainability factors across environmental and social pillars. The PAIs were taken into account through the application of the DNSH principle outlined above for the determination of sustainable investments as well as qualitatively through the Fund/Sub-Fund's investment approach.

In regard to the consideration of the PAIs as part of the DNSH assessment of an issuer, as noted above a proprietary quantitative or qualitative threshold for significant harm has been set for the mandatory PAIs relating to investees, and is assessed using information from an external data provider. These thresholds for significant harm have been set on a relative or absolute basis against each PAI depending on the Management Company's assessment of the worst performing investments with respect to those PAIs. Where data is not available for a specific PAI a suitable proxy metric has been identified. If both PAI and proxy PAI data (where relevant) is not available and/or applicable to complete the DNSH assessment on an issuer, such issuer is generally excluded from qualifying as a sustainable investment.

***Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:***

The Fund/Sub-Fund leveraged a proprietary approach to identifying and evaluating companies which, amongst other factors, are not considered to be aligned with global norms as further described below. Following this assessment, any companies which are considered to be in violation of these global norms (including the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights) were excluded from qualifying as a sustainable investment.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

**How did this financial product consider principal adverse impacts on sustainability factors?**

Over the reference period, the Fund/Sub-Fund considered principal adverse impacts on sustainability factors (PAIs) across the environmental and/or social pillars. PAIs are taken into account qualitatively through the application of the binding ESG criteria outlined in the prospectus. On a non-binding and materiality basis, PAIs are also considered through firm-wide and investment team specific engagement. The PAIs considered by this Fund/Sub-Fund included:

PAI CATEGORY	PAI
Mandatory Climate PAIs	<ul style="list-style-type: none"> <li>• Green house gas emissions</li> <li>• Carbon footprint</li> <li>• Green house gas intensity of investee companies</li> <li>• Exposure to companies active in the fossil fuel sector</li> <li>• Energy consumption from non-renewable sources</li> <li>• Energy production from non-renewable sources</li> <li>• Energy consumption intensity per high impact climate sector</li> <li>• Activities negatively affecting biodiversity sensitive areas</li> <li>• Emission to water</li> <li>• Hazardous waste and radioactive waste ratio</li> <li>• Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises</li> <li>• Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact Principles and OECD Guidelines for Multinational Enterprises</li> <li>• Unadjusted gender pay gap</li> </ul>

	<ul style="list-style-type: none"> <li>• Board gender diversity</li> <li>• Exposure to controversial weapons (antipersonnel mines, cluster munitions, chemical weapons and biological weapons)</li> </ul>
Non-mandatory Climate PAIs	<ul style="list-style-type: none"> <li>• Investing in companies without carbon emission reduction initiatives</li> <li>• Land degradation, desertification, soil sealing</li> <li>• Investments in companies without sustainable land or agriculture practices or policies</li> <li>• Natural species and protected areas</li> <li>• Deforestation</li> </ul>
Non-mandatory Social PAIs	<ul style="list-style-type: none"> <li>• Rate of accidents</li> <li>• Number of days lost to injuries, accidents, fatalities or illness</li> <li>• Number of incidents of discrimination</li> <li>• Number of incidents of discrimination leading to sanctions</li> <li>• Excessive CEO pay ratio</li> </ul>

#### What were the top investments of this financial product?

Largest investments	Sector	% Assets	Country
MICROSOFT CORPORATION	Information and communication	7.38%	US
APPLE INC.	Manufacturing	6.53%	US
AMAZON.COM INC.	Wholesale and retail trade; repair of motor vehicles and motorcycles	5.13%	US
NVIDIA CORPORATION	Manufacturing	4.21%	US
ALPHABET INC.	Information and communication	3.99%	US
S&P GLOBAL INC.	Information and communication	3.09%	US
BROADCOM INC.	Manufacturing	2.93%	US
UNITEDHEALTH GROUP INCORPORATED	Financial and insurance activities	2.55%	US
ASML HOLDING N.V.	Manufacturing	2.37%	NL
WASTE MANAGEMENT INC.	Water supply; sewerage waste management and remediation activities	2.27%	US
THERMO FISHER SCIENTIFIC INCORPORATED	Manufacturing	2.25%	US
ALLIANZ SE	Financial and insurance activities	2.16%	DE
PALO ALTO NETWORKS INC.	Information and communication	2.15%	US
LINDE PUBLIC LIMITED COMPANY	Manufacturing	2.13%	IE
COMPASS GROUP PLC	Accommodation and food service activities	2.07%	GB

#### What was the proportion of sustainability-related investments?

Over the reference period, 99.55% of investments were aligned to the environmental and/or social characteristics promoted by this Fund/Sub-Fund.

##### **What was the asset allocation?**

Over the reference period, 99.55% of investments were aligned to the environmental and/or social characteristics promoted by this Fund/Sub-Fund.

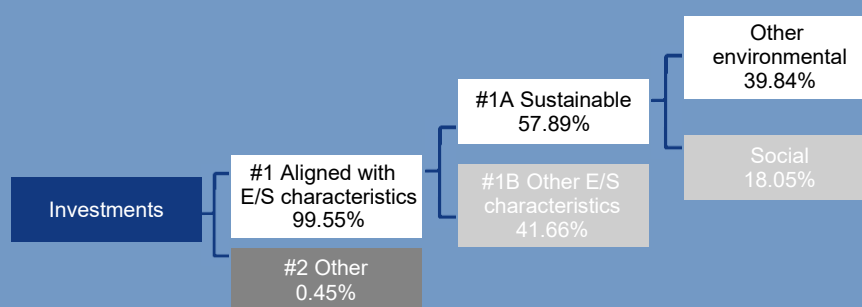

0.45 % of investments were held cash for liquidity purposes; derivatives for efficient portfolio management/investment purposes; and/or investments in UCITS and other collective investment schemes in order to achieve the investment objective of the Fund/Sub-Fund.

And while the Fund/Sub-Fund did not have as its objective a sustainable investment, it had a proportion of 57.89% sustainable investments, of which 39.84% were other environmentally and 18.05% were socially sustainable investments.

Over the reference period, a minimum of 95% of the Fund/Sub-Fund's investments were consistently aligned to the environmental and/or social characteristics of the Fund/Sub-Fund.

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 2024-12-31

**Asset allocation** describes the share of investments in specific assets.

**#1 Aligned with E/S characteristics** includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

**#2 Other** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

-The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.

- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

***In which economic sectors were the investments made?***

Sector	Sub Sector	% of NAV as at December 31, 2024
Accommodation and food service activities	Food and beverage service activities	2.07%
Administrative and support service activities	Employment activities	1.18%
	Rental and leasing activities	0.90%
Cash	Cash	0.45%
Common	EQCORP	3.83%
Electricity gas steam and air conditioning supply	Electricity gas steam and air conditioning supply	1.47%
Financial and insurance activities	Activities auxiliary to financial services and insurance activities	5.60%
	Financial service activities except insurance and pension funding	3.53%
	Insurance reinsurance and pension funding except compulsory social security	6.19%
Information and communication	Computer programming consultancy and related activities	3.65%
	Information service activities	8.68%
	Publishing activities	11.26%
Manufacturing	Manufacture of basic pharmaceutical products and pharmaceutical preparations	3.69%
	Manufacture of chemicals and chemical products	7.89%
	Manufacture of computer electronic and optical products	19.85%
	Manufacture of electrical equipment	1.90%
	Manufacture of food products	2.46%

Manufacturing	Manufacture of leather and related products	0.01%
	Manufacture of machinery and equipment n.e.c.	4.15%
	Other manufacturing	0.89%
Water supply; sewerage waste management and remediation activities	Waste collection treatment and disposal activities; materials recovery	2.27%
Wholesale and retail trade; repair of motor vehicles and motorcycles	Retail trade except of motor vehicles and motorcycles	8.11%

### To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Over the reference period, the Fund/Sub-Fund did not invest in any “sustainable investments” within the meaning of the EU Taxonomy and therefore its alignment with the Taxonomy was 0%.

### Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy’?

- ☐ Yes
- ☐ In fossil gas ☐ In nuclear energy
- ☒ No

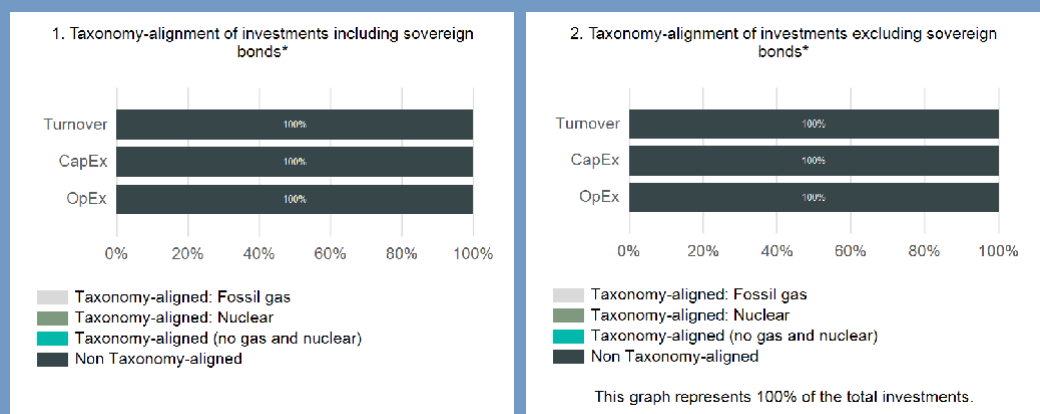

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective. **Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The two graphs below show in blue the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

\* For the purpose of these graphs, ‘sovereign bonds’ consist of all sovereign exposures.

### What was the share of investments made in transitional and enabling activities?

As the Fund/Sub-Fund did not invest in any “sustainable investments” within the meaning of the EU Taxonomy, the minimum share of investments in transitional and enabling activities within the meaning of the EU Taxonomy was therefore also 0%.

### How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

There have been no changes compared with previous reference periods.

### What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The share of sustainable investments with an environmental objective that were not aligned with the EU Taxonomy was 39.84%.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852

### What was the share of socially sustainable investments?

The share of socially sustainable investments was 18.05%.

### What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Investments included under 'other' were cash used for liquidity purposes, derivatives for efficient portfolio management/investment purposes and investments in UCITS and UCIs needed to achieve the investment objective of the Fund/Sub-Fund. These investments were not subject to any minimum environmental or social safeguards.

### What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Management Company has taken actions to ensure that the environmental and/or social characteristics of the Fund/Sub-Fund were met during the reference period. The sustainability indicators of the Fund/Sub-Fund were measured and evaluated on an ongoing basis.

GSAM used proprietary firm and third-party systems to monitor compliance with binding environmental or social characteristics of the Fund/Sub-Fund contained within the investment guidelines in line with the GSAM Investment Guidelines Policy.

Breaches or errors regarding investment guidelines (including breaches or errors regarding the binding environmental or social characteristics and minimum sustainable investment commitments of the Fund/Sub-Fund) were handled in accordance with the Management Company's Policy on Breaches and Errors and the Policy on GSAM Error Handling which also requires that employees promptly report any incidents (whether resulting from action or inaction) to their GSAM supervisors as well as GSAM Compliance. The information gathered in the incident reporting process is to ensure that clients are appropriately compensated, to assist in improving business practices and help prevent further occurrences.

Additionally, the Management Company leveraged the Goldman Sachs Asset Management Global Stewardship Team's engagement initiatives in respect of the Fund/Sub-Fund. The Goldman Sachs Asset Management Global Stewardship Team focuses on proactive, outcomes-based engagement, in an attempt to promote best practices. Engagement initiatives were continually reviewed, enhanced, and monitored to ensure they incorporated current issues, evolving views about key environmental, social, and governance topics and sustainability-related controversies. To guide engagement efforts, the Goldman Sachs Asset Management Global Stewardship Team creates a Stewardship Framework, which reflects the Goldman Sachs Asset Management Global Stewardship Team's thematic priorities and guides voting and engagement efforts.

### How did this financial product perform compared with the reference benchmark?

**Reference benchmarks** are indexes to measure whether the financial products attains the environmental or social characteristics that they promote.

No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Fund/Sub-Fund.
