In the Netherlands, you can build up pension in three ways: through your Dutch state pension benefit (AOW), through your employer, and with money you save yourself.

2

On mijnpensioenoverzicht.nl you can see where you have built up pension so far and how much it is approximately. Log in with your DigiD and fill in a few details. The tool does the rest!

3

- ☐ **Are you a customer of Nationale-Nederlanden? Then go to mijn.nn** (estimated time: 2 min)

On your personal pension page, you will find all Nationale-Nederlanden pensions together. You can also add other pensions. Then you have all your pots in one place.

4

- ☐ **Think about what you will need in the future** (estimated time: 15 min)

Try to get an idea of your future life. Do you want to make long trips or work longer? List your future goals and link them to income and expenses. Then you'll know roughly how much money you'll need later.

5

- ☐ **Learn about the extra choices you can make** (estimated time: 20 min)

Are you building up too little pension to live the life you want? Take extra measures, if possible. Such as additional pension savings or extra savings or investments. What you should do depends on your personal situation. But the sooner you take action, the better!
