'Together for Society'

€ 250,722

2024: € 102,308

Together for Society is an Employee Donation Fund supported by NN colleagues in the Netherlands. Colleagues can request a donation of up to € 7,500 for a charitable organisation or cause they are involved in.

Together for Society has an ANBI status, RSIN number: 851201118

Proud of our colleagues and their commitment to society

We are incredibly proud of our colleagues who, alongside their work, volunteer their time and energy to support society. They really make a difference. We see this not only in the amazing diversity of initiatives, but also in the growing number of applications. From care and inclusion to supporting young people, older people, and those dealing with financial worries or debt, every initiative contributes to a better society.

In 2025, in addition to **Together We Make the Difference** for applications up to € 7,500, we launched a new initiative. With **Together We Support Society**, we give colleagues a small boost by making it easy to apply for a contribution of up to € 200 for a club, charity or local project. Sometimes, a small push is exactly what's needed.

Every initiative has its own unique story, but they all share the same goal: together, we make the world a little bit nicer.

Examples of charitable organisations that received a donation:

Dress for Success Netherlands

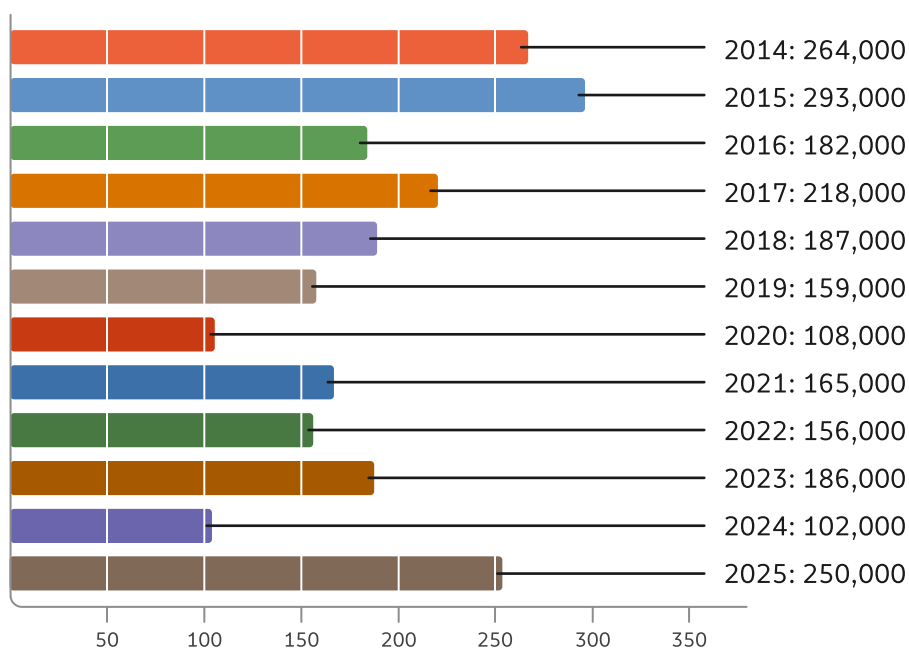

'Dress for Success Netherlands' operates 10 boutiques across the country, supporting people with a distance to the labour market in preparing for job interviews and employment. In these boutiques, clients receive high-quality professional clothing complemented by expert coaching and styling advice, enabling them to present themselves with confidence and dignity. Clothing is central to the programme, as it helps clients take a concrete and positive step towards work. In addition, Dress for Success provides guidance and coaching focused on confidence building and job readiness. When clients succeed, such as securing a job or starting a new role, they are invited to return and select an additional outfit, supporting a sustainable transition into employment.

Stichting Anne-Bo

Stichting Anne Bo makes higher education accessible to young women for whom studying is not self evident. Founded in 2020, the foundation supports girls who lack financial means, networks, or role models. Students receive scholarships covering study costs, books, and a laptop. Each student is paired with a personal coach who supports her throughout her entire study period. The Anne Bo Academy provides activities focused on personal and professional development. The foundation supports access to HBO and university education across the Netherlands. Beyond education, Anne Bo offers help with housing, practical administration, and personal challenges. Through partnerships and coaching networks, students gain access to internships and work opportunities. This integrated approach helps young women graduate with confidence and independence. Stichting Anne Bo empowers them to build a sustainable, self reliant future in society.
