

Experiment, research and innovation

NN Group Art Collection Highlights

We actively seek to promote art because we believe artworks inspire and connect people.

We support artists via commissioning pieces for the NN Group Art Collection, consisting of about 2,000 artworks, that are on display in our Dutch offices.

Experimentation, research and innovation are the collection's criteria, with a focus on artists who have a strong connection with the Netherlands. The history of this art collection dates back to the beginning of the 20th century and contains several disciplines nowadays: Dutch painting, photography, works on paper, glass art, sculptures and video art. We also purchase artworks by the nominees* of the NN Art Award, presented yearly at the art fair Art Rotterdam.

Take a peek at the variety of artworks in the NN Group Art Collection!
