

Package Comparer Health Insurance 2021 of Nationale-Nederlanden Zorg

Valid from 1 January 2021

Overview of the reimbursements in 2021

This package comparer provides an overview of the reimbursements for basic insurance and supplementary insurance for 2021. It is an easy way to compare the different types of insurance. Only the insurance policies that can be taken out in 2021 are included.

Basic insurance

The government determines the reimbursements under the basic insurance plan. Nationale-Nederlanden has made agreements on rates with most healthcare providers. Nationale-Nederlanden reimburses in full the bill you receive from your healthcare provider. Very occasionally, however, we receive a bill from a healthcare provider that is unreasonably high. We are prohibited by law from reimbursing such a bill. Fortunately, this almost never happens. When you see '100%' in the package comparer, it means that this type of healthcare is insured. In the columns headed 'excess' and 'personal contribution' you will see whether the insured care will be set off against any amount outstanding on your excess or whether you have to pay a personal contribution on top of your excess. Your excess is € 385 in 2021. Only insured persons aged 18 and older pay the excess. The government fixes the amount of the compulsory excess and the personal contribution, which are independent of one another.

Supplementary and dental insurance policies

If you would like more extensive coverage for certain elements of healthcare, you can opt for a supplementary insurance policy, with or without dental care. All amounts in the supplementary insurance policies are maximum amounts that apply per insured person per calendar year, unless otherwise stated. In every case, the healthcare provider/institution must be recognised by Nationale-Nederlanden.

Package Comparer Health Insurance 2021 (for an explanation, please see page 3)
