‘Nationale-Nederlanden Zorgpolis’ (model number: 6400102) version 1

The reimbursements provided by the medical expenses insurance policy based on the ‘Restitutie’ health insurance policy are summarised in the Reimbursements Overview below.

This Reimbursements Overview contains several columns:

‘Amount reimbursed’

This column contains amounts, quantities, hours and/or reimbursement periods. These are always the maximum amounts, quantities, hours and/or reimbursement periods.

Reference is also made to lists (e.g. the list of preferred medicines, ‘Lijst voorkeursmedicijnen’) and regulations (e.g. regulations on medical aids, ‘Reglement Hulpmiddelen’). These appendices to your health insurance policy are available on our website.

The reimbursement percentages are calculated in accordance with the statutory rates or the market rates applicable in the Netherlands. For more information, please refer to clause A.20 of the Terms and Conditions of Health Insurance and Additional Insurance Packages.

‘Terms and conditions’
